

THE BLAIRMORE ENTERPRISE

VOL. XVIII, NO. 15.

THE BLAIRMORE ENTERPRISE, THURSDAY, APRIL 14, 1927.

22.00 PER ANNUM

FUNERAL OF LATE W. T. PATTERSON

Not for some time has such a large turnout of citizens been noticed at a funeral as was the case on Friday afternoon last, when the funeral services were held from the I.O.O.F. hall at 4 o'clock for the late William Thompson Patterson, son of Mr. and Mrs. Peter Patterson, of this city, whose sudden demise at the Trail hospital was chronicled in these columns last week.

The services were under the auspices of Roseland Lodge No. 36, I.O.O.F., the late Mr. Patterson having been a member of Blairmore Lodge No. 68, Oddfellows, being at one time the youngest past noble grand in Alberta.

Long before the appointed hour the hall was well filled with friends of the bereaved widow and little daughter, Mr. Patterson's parents and the deceased. Members of Roseland Lodge No. 36, Oddfellows, Enterprise Lodge No. 43, Trail Oddfellows, Deborah Rebekah Lodge No. 13, of this city, and members of Roseland Branch Canadian Legion, B.F.S., and fellow workmen of deceased who were employed at the smelter of the Consolidated Co. at Tadenac, and Maple Leaf Temple No. 4, Pythian Sisters, of this city, attended in a body; to pay their last respects to a young man who was highly esteemed by all.

The services were conducted by George F. Reimann, of Enterprise Lodge, Trail, grand high priest of the

grand lodge of British Columbia, who officiated as chaplain, the services being carried out in a most impressive manner by Mr. Reimann, assisted by William C. Callin, district deputy grand master for this city and Trail. Mrs. Isaac Glover, of Deborah Rebekah Lodge, acted as pianist, and one hymn, "Nearer My God to Thee," was sung.

Interment was made in the Oddfellows' plot in Sunnyside cemetery, Geo. F. Reimann conducting the services at the graveside, the Oddfellows marching in a body to the cemetery. The pallbearers were: Messrs. Littlejohn, J. Beng, Jack Marshall, high priest of Roseland Encampment No. 8, representing Roseland Oddfellows, A. Webb, noble grand of Enterprise Lodge, Trail Oddfellows, and President Archibald E. Wright and James Wright, the latter two representing Roseland Command Canadian Legion, B.E.S.L.

The following floral tributes were received from friends: Wreaths: the family, Roseland Lodge No. 36, I.O.O.F., Coleman, Alberta, Lodge of Oddfellows, the salvage department of The Consolidated Co., Roseland Branch Canadian Legion, B.E.S.L., Mr. and Mrs. Little and A. Little; prays, Movak Rover Patrol, Saratoga Encampment No. 8, of Roseland, Deborah Rebekah Lodge No. 13, Maple Leaf Temple No. 4, Pythian man who was highly esteemed by all. Sisters, Mr. and Mrs. Hugh Bell, of Trail, Wm. Baker, Mr. and Mrs. E. G. Fuller, Mr. and Mrs. John Triggs, Mr. and Mrs. S. Martin, Mr. and Mrs. W.

APRON SALE AND TEA AT BELLEVUE

At a special meeting of the Bellevue Ladies' Aid on Monday evening, final arrangements were made for the apron sale and tea, to be held on Saturday next, commencing at 3 p.m., in the ladies' parlor of the United church.

There will be a good assortment of aprons, both fancy and plain, as well as other articles of needlework. Now is your chance to get something useful and pretty.

Tea will be served during the afternoon.

DEATH OF H. C. DILLINGHAM

The death of H. C. Dillingham occurred at the family home in California at 8 o'clock last night, following a very brief illness.

Mr. Dillingham was formerly connected with the staff of The Blairmore Enterprise, leaving here to take over The Province, at Innisfail, about five years ago.

He is survived by a wife, one son, Rex B., and two daughters, Miss Irene and Norma.

Mr. Dillingham, of the Macleod Times staff, is a brother.

The Enterprise extends sympathy to the bereaved.

PRIZE ESSAYS IN LOCAL L.O.D.E. COMPETITION

At the local schoolhouse on Tuesday afternoon, prizes were awarded to the winners of first place in Grades VII and VIII, for essays on the life of James Wolfe. This competition was staged under the auspices of Crows' Nest Chapter of the L.O.D.E. The judges were Messrs A. J. Kelly, S. G. Bannan and W. I. Huston. The essays were written during the month of January, quite a number of pupils competing.

Prizes were awarded to Miss Betty Thompson, of Grade VII, and Miss Alida Grimblemont, of Grade VIII. The presentation was made by Mrs. McKay, president, following a fitting speech by the secretary, Mrs. S. G. Bannan.

We regret that space will not permit our publishing the prize essays in this issue, but they will appear next week.

BLAIRMORE TENNIS CLUB RE-ORGANIZES FOR SEASON

A very successful meeting of the Blairmore Tennis Club was held on Tuesday, April 12th, and the club was re-organized for the season of 1927. The following officers were elected: Honorary Presidents—J. Charbonnier, G. A. Vissac, R. Green. President—E. McDonald. Vice-President—F. A. Wallace. Secretary-Treasurer—A. C. Hnatyshyn.

Grounds, Committee—Mrs. J. A. Kerr, Messrs. R. Pinkney, D. McPherson, and R. Thompson.

Though hampered somewhat by weather conditions, work on the courts has already commenced and it is expected to have three courts in first class shape for play by the end of the month, when all will be in readiness for a banner season. A cordial invitation is extended to all who are desirous of joining the club.

Miss Florence May, eldest daughter of Mr. and Mrs. Albert May, of Bellevue, who was thrown from her horse while riding to her school at Chapel Rock last week, sustained injuries which rendered her unconscious for several days. She was removed to her home and latest reports say that she is recovering.

Coulter, Mr. and Mrs. W. F. McNeill, Mr. and Mrs. F. S. Campbell, of Trail, and Mr. and Mrs. Samuel Irvin—Roseland Miner.

MARY SARTORIS

Daughter of Mr. and Mrs. Mari Sartoris, of Blairmore, winner of the provincial championship in typewriting for novices, entitling her to a free trip to New York in October next, where she will compete for the world's championship.

Mary is a pupil of Garbutt Business College, Calgary, and took up a typewriting course last September. She will continue her studies at Garbutt preparing for the World's School Championship go.

The trip to New York will be financed by the Underwood Typewriter Co.

Mary is a native of Blairmore and a product of the local school, which institution she severed her connection with about two years ago.

In the competition at Calgary, Miss Sartoris attained the remarkable speed of 61½ net words a minute, a splendid record for one who had not studied typewriting before last September.

DEATH OF MRS. E. A. WELCH

The death occurred at Galt Hospital, Lethbridge, on Saturday last, of Mrs. E. A. Welch (nee Miss Rita Coates), eldest daughter of Mr. and Mrs. Richard Coates, of Cowley, aged 24 years.

The remains were laid to rest in Cowley cemetery on Monday.

Mr. and Mrs. Coates and family desire to express their sincere thanks to neighbors and friends for expressions of sympathy, also for the beautiful floral tributes, or any who helped in any way in their sad bereavement.

Floral tributes included the following: Mr. and Mrs. Harrison, Drumheller; Mr. and Mrs. R. J. Day and family, Mrs. and Mrs. H. C. Morrison and family, Mr. and Mrs. Leigh and family, Mr. and Mrs. C. Elton and family, Officers and Members of Chinook Lodge, A. F. & A. M., Mr. and Mrs. Betts and Edna, Spring Ridge Local of the U.F.W.A., Mr. and Mrs. F. A. Tustian, Mr. and Mrs. A. G. Swart, Mr. and Mrs. James Smythe, Mrs. Latta, T. H. Shepherd, S. W. King, Mr. and Mrs. Archie McKay, Mr. and Mrs. A. J. Snyder, Mr. and Mrs. T. J. Wright and family, Mrs. Christie, Mrs. M. A. Murphy and Muriel Peel, Cowley; Sunahine Division No. 64 of the Order of Railway Conductors, Mr. R. Moreland, Ladies' Society, B. of L. F. & E., Mr. and Mrs. Fred Quick, Mr. and Mrs. N. S. McElroy, Alberta Lodge No. 735, B. of L. F. & E., Mr. A. E. Leggett, Division 750, B. of L. F. & E., Lethbridge Encampment No. 7, I.O.O.F., Mr. and Mrs. J. H. Johnson, Mr. and Mrs. F. C. McLane, Mr. and Mrs. George Emmerson, Mr. and Mrs. H. Chipman, Mr. and Mrs. T. Powell, Mr. and Mrs. A. J. Burnap, Mr. and Mrs. J. J. Gogan, Order of Railway Conductors, Mr. and Mrs. J. Beaumont, Mr. and Mrs. H. Mosher, G.I.A. Lodge of B. of L. F. & E., Mr. and Mrs. S. J. Halpin, Mr. N. R. Lepard, Mr. and Mrs. A. Baines, Lethbridge; Mr. and Mrs. A. Durrett, Manager and staff of Manufacturers' Life Insurance Co., Calgary; Mr. and Mrs. Ed. Groves and Rhona, Lundbreck; Mr. and Mrs.

A. G. Welch, Nanaimo, B.C.; Mr. and Mrs. F. G. Welch, Vancouver, B.C.

Alberta will spend \$2,400,000 on highways and bridges this year. This bridges.

will spend \$2,400,000 on highways, the balance being for maintenance of highways and bridges this year. This bridges.

When He Is Away

FOR the mutual use of two or more persons a Joint Account is a great convenience.

With a Joint Account, a wife may deposit or withdraw money when her husband is away or cannot get to the bank during business hours.

Our folder, "For the Convenience of Your Wife," explains Joint Accounts. Ask for a copy

WORLD HAPPENINGS
BRIEFLY TOLD

All restrictions imposed in Great Britain on account of the foot and mouth disease of cattle have been removed.

Information obtained from reliable sources in Montevideo is to the effect that the Cuban Government will, in all likelihood, create a diplomatic post in Ottawa.

Sir Thomas Lipton has arrived at New York to repeat his optimistic belief in his ability to build a yacht that will take the America Cup to England.

Grain exports from Vancouver for the season to April 5, total 25,182,564 bushels, compared with 42,469,815 bushels for the same period a year ago.

The "sale of beer bill," prepared by the joint committee of veterans of the Winnipeg, which asked for the sale of beer by the glass, was killed on second reading in the legislature.

Tried by court-martial for the kidnapping and murder of Edgar M. Williams, United States electrical engineer, seven men have been convicted by a firing squad at Guadalajara, Mexico.

Sir Christopher Parr, High Commissioner in London for New Zealand since last year, has been nominated as New Zealand's representative on the newly organized Pacific Cable Board.

Major H. O. D. Seagrave, with his 207-6 miles an hour automobile tucked away in the hold of the liner Brenar, announced shortly before sailing that the car would be placed in a museum on reaching England.

One cruiser, six destroyers, five submarines, one mine laying submarine and two dispatch vessels will be built by France between July 1, 1937, and June 30, 1938, under a plan signed by President Bourgeois.

The vessels belong to the second section of France's naval program.

THE ONLY MEDICINE
BABY HAS HAD

Is What Thousands of Mothers Say of Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little baby she will use nothing else. Experience teaches her that they are without an equal for relieving baby from all the troubles of the minor ailments which afflict him at one time or another. The Tablets never fail to be of benefit—they can't possibly do harm and they are guaranteed to be free from all injurious drugs.

Concerning Baby's Own Tablets Mrs. Russell Hill, Norwood, Ont., says:—"I shall always have a good word to say for Baby's Own Tablets. I have given them to my baby girl in fact they are the only medicine she has ever had and I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving Baby's Own Tablets."

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

Tobacco growing in Manchuria, a comparatively new industry in that country, is rapidly gaining an importance. Manchurian tobacco is said to be of fine quality, and is well liked by the Chinese, but also by the Russians and Japanese.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum. Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the variety of uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

According to an old English superstition, when children of both sexes were brought to the font at once, the boy must precede the girl, otherwise she would be in danger of having a beard when she grew up.

W. M. U. 1676

A Nerve Racking Occupation

Sailors on Submarine Have Physical Endurance Tested to Limit Life in a submarine forms the subject matter of an article by M. McEl in the Spectator. Those who have never made a voyage in a "U" boat often ask, he writes, what it feels like to go below the sea.

This question may be answered by saying that diving quickly in a submarine feels much like descending in a fast non-stop elevator from the top floor of a New York skyscraper. There is the same curious sensation of upward pressure on the soles of the feet during the descent, and, usually, a similar slight lift is noticed on reaching the bottom.

In calm weather a submarine below the surface travels without rolling or pitching, and there is no vibration of any kind. She remains almost as quiet as when at anchor. In harbor only the hum of the motor and an occasional click of the steering gear disturbs the stillness. If the sea is rough, however, the ship rolls as readily as even at a depth of 30 feet and the water gurgles noisily in the vent pipes.

Contrary to popular belief, the atmosphere in a submarine keeps pure and fresh for at least 12 hours, owing to a constant supply of oxygen. If the boat stays down longer things feel sticky to touch and the air begins to get stale. Foul air rises into the control room, which becomes stuffy long before any real difficulty of breathing is experienced in the ward room.

Every submarine has its own limit of depth. Generally speaking, below 200 feet the hull is liable to be crushed in like an egg-shell by the external pressure of the sea.

Sounds are conveyed by water with surprising clearness. Even at a great depth, the noise of a destroyer passing over the boat seems as loud as the roaring of an express train in a railway tunnel.

It would be wrong to imagine that dangers are ever completely forgotten. While the voyage lasts there pervades the whole ship's company an undercurrent of suppressed excitement—a latent expectancy that something serious may happen at any time.

It is this continually keeping on the alert that strains the nerves and taxes so severely the physical endurance of submarine sailors. Only specially selected men are capable of performing the arduous duties required. The submarine service is certainly not adapted for anyone afflicted with a nervous temperament or a pessimistic outlook on life.

Women To Enter

Italian Air Service

Primarily For Observation and Signal Posts Along Frontier

Women will be used in Italy's aeronautical service in the future, Signor Balbo, Under-Secretary of State for Aviation, told the Chamber of Deputies during a discussion of the aeronautical budget. The women will be used principally as the personnel of observation and signal posts along the frontier to guard against incursion of enemy aircraft.

By 1930, the under-secretary said, Italy will have 5,797 airplanes, of which 865 will be bombers, 1,250 bombers and 682 scouts, with a yearly budget for aeronautics of 450,000,000 lire.

The Kicking Horse Trail

Among the important developments in connection with the Canadian National Parks in 1927, is the new motor highway to be known as "The Kicking Horse Trail," which will throw open practically the whole of Yoho Park to motor tourists. It will make possible a new highway loop of about 300 miles through the heart of the most beautiful Rocky Mountain scenery.

Drill for Oil in Manitoba At least six wells will be drilled during the coming spring and summer in the Grandview, Man., structure, according to announcements made by W. T. Ross, managing director of the Iron Gas & Oil Co.

This statement follows the news that the Hudson's Bay-McLeod Oil Co. had purchased 1,320 acres of leases from the Iron Gas & Oil Co.

"You had better be X-rayed," said the doctor.

"There's no need," sighed the patient. "Get my wife; she's always been able to see through me."

Jordan: "So he's a great inventor is he? What has he invented?"

"Browlax." "A transparent window for chiselers—so you can tell what's inside without hitting it."

M. Brand, foreign minister of France, fifth man of his country to win the Nobel Peace Prize, must pay about \$5,000 of the \$10,000 award to the French treasury

New Type Airplane

Fashioned Like Gull

Aviator Constructs One Which Can Land in Smallest Possible Field. A new type airplane, designed to take off from "a field the size of a pocket handkerchief," and for landing on the roofs of buildings, is ready for testing in New York.

Leonard W. Bonner, trained in 1915 by Orville Wright as one of the veteran pilots of the country, has completed the machine after two years' effort. It is "just another air," he writes, "10 years ahead of everybody else" as a designer.

The machine is fashioned after a sea gull. Many of the principles of bird flight, particularly those of making quick stops in alighting, were used in the new design.

As soon as the plane touches the ground the wings cease to support the machine and act with their full surface as air brakes to stop forward motion. A further application of this principle folds the wings back along the fuselage until the machine can be run into a hangar with a door 15 feet wide.

The elevators may be spread in flight as a blackbird "fantails" while on the wing. The wings and tail surfaces are of duralumin.

Historic House Occupied

Haddon Hall, Vacant 200 Years, Again Made Habitable

Romantic Haddon Hall, after being vacant for over 200 years, at last has an occupant.

The Duke of Rutland, whose family has owned the famous mansion since the days of Dorothy Vernon, says there March 30, thus achieving his life-long ambition.

The Duke for eighteen months has been supervising repairs and alterations to make the mansion habitable again. He has been working on the Haddon chapel bell, which was removed to Rowsley when the third Duke of Rutland left Haddon Hall.

Winnipeg Newspaper Union

Alberta Man Suffered With Weak Kidneys and Found Dodd's Kidney Pills Very Helpful

Here is a testimonial: "I have found your Dodd's Kidney Pills very helpful for my kidneys. I am Mr. Fred Hartman, well known and highly respected resident of this place. I used to have a weak back and since using your Pills I feel better in every way and am no longer in pain. I used to have bad spells and would feel miserable all over. As soon as I started taking your Dodd's Kidney Pills I felt better."

It is astounding how many people go on suffering day after day with aches and pains, rheumatism and backaches. They suffer because they are not aware of the fact that they can get relief. Strengthen the kidneys which are the source of the trouble and these pains vanish. Dodd's Kidney Pills act directly on the kidneys. They lead and strengthen them so that they do their full work of straining all the impurities out of the blood.

The Newspaper of Today

Aims to Present to Readers Important Events of Community

The newspaper to today aims to be a mirror of the important events in the community in which it is published, and of the world at large. It does not follow that the unusual, the unexpected, the startling are not news. The light and amusing, the strange and fantastic have their proper and important place in the newspaper, the pages of which they lighten, but newspapers that exploit the oddities of life to the neglect of the great moving force, are merely running side-shows to real journalism. Well directed journalism is one of the greatest forces in society today—Brantford Expressor.

Learned Knitting From Sailors

It is claimed for the women of the Shetland Islands that they are the best knitters in the world. Tradition has it that the pioneers of their handicraft were some Spanish sailors who were stranded in the islands after the disaster to the Spanish Armada, and from whom the women learned the new art of knitting.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the latest of the style centres and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

She Beats the World

Golden Text: Thou art the Christ, the Son of the living God.—Matthew

Lesson: Matthew 18:13-14.

Devotional Reading: Psalm 34:1-8.

Explanations and Comments

1. Ophthalia About Jesus, verses 13, 14. With His disciples Jesus had journeyed as far as the neighborhood of Caesarea Philippi when He suddenly asked them, "Who do men say that the Son of man is?" The phrase, "Son of man," was not associated in the popular mind with the idea of the Messiah, for had it been, Jesus would not have said it as He did early in His ministry. He used it here, seemingly, with no implication as to His identity, but to lead them to give His question thus: "Who do men say that I am?"

The disciples answered that some thought He was John the Baptist (as Herod said, Matthew 14:2); some, that He was Elijah; and others, Jeremiah or some other of the prophets. "There was no man then living with whom I could be compared. We do the same thing. When we want to stir men's hearts, we appeal to the dead; when we search for the great, we descend into the grave, we talk of Shakespeare and Caesar, of Charlemagne and Alfred the Great, of Lincoln and Washington. We do not call the name of a man living. This tells very clearly that to them He was a man of tremendous power" (C. E. Jefferson).

"Did you ever think of the vast difference there is between the characters of Elijah and Jeremiah?" questions G. H. Morrison. "The one is a prophet, the other a seer. The other is the prophet of the tender heart. And the remarkable thing is that the common people should have taken these types, which are so wide apart, and should have found in both the same Christ."

In other words, the impression which Jesus made was that of a complex, inclusive personality. You could not exhaust Him by a single portrait. It took the range of the greatest to portray His character.

New Device For Motor Car Headlights

The Visolite Transparent Deflector arranged so that the motor car owners will have no difficulty in focusing their headlights to conform with the traffic laws of Saskatchewan has taken the lead in eliminating the dimming of headlights and substituting a requirement that all lamps carried on the front of a motor vehicle shall be so arranged that the light rays shall be reflected or refracted light issuing therefrom shall, when measured at a distance of about six inches, rise above forty-two inches from the level surface on which the motor vehicle stands.

The Visolite brings the uppermost rays down to a proper focus thereby eliminating the penetrating glare so often experienced by car owners with night driving. Only the uppermost rays are refracted in the volume of the light is not lost. Many drivers complain of eye-strain by constantly looking ahead for snags and bumps through the glaring white lights of his car. Visolites from the driver's seat can be seen in reflection above the main beam of light thereby eliminating eye-strain and at the same time sufficiently outlining all objects above the horizon of vision. It is just as difficult for light to penetrate a window as it is for a driver to see through a windshield when raining, without a windshield wiper. The Visolite extends far enough out from the lens to arrest the glare originating at the bottom edge of the reflector as well as keeping dirt off the lens during snow and fog.

Visolites are made of a 25 gauge green celluloid, with an aluminum rim. They are the result of more than three years of experimenting and scientific tests. They are made snugly between the lens and rim, and can be attached to any headlight.

Have Prospered In Canada

Two Syrians Leave for Native Home to Select Wives

The Canadian Paper may have her good points, but when it comes to selecting a wife to share farm life in Saskatchewan, Sid Gotney and Charles Nashman, who claim Syria as their native home, are looking farther afield. The two prospective bridegrooms here to marry Syria. And the object of the trip is to find themselves two Syrian lasses willing to share the vicissitudes of life on a Saskatchewan farm.

Gotney has farmed for the past fifteen years at Wood Mountain. His friend, who came to Canada as a small boy, owns a farm in Alberta. Both proudly claim to be naturalized British citizens. Both have prospered in Canada and hope to return here at a not long distant date. But they hope it will not be as bachelor.

"We still like to console ourselves with the delusion that the grapes just beyond our reach are sour."

For Years Mother Graver's Worm

Exterminator has ranked as a reliable worm preparator and it always maintains its reputation.

The diameter of the planet Mercury is about 3,000 miles, or nearly 30-100ths the diameter of the earth.

SUNDAY SCHOOL LESSON

APRIL 17

PETER'S GREAT CONFESSION

Golden Text: Thou art the Christ, the Son of the living God.—Matthew

Lesson: Matthew 18:13-14.

Devotional Reading: Psalm 34:1-8.

Explanations and Comments

1. Ophthalia About Jesus, verses 13, 14. With His disciples Jesus had journeyed as far as the neighborhood of Caesarea Philippi when He suddenly asked them, "Who do men say that the Son of man is?" The phrase, "Son of man," was not associated in the popular mind with the idea of the Messiah, for had it been, Jesus would not have said it as He did early in His ministry. He used it here, seemingly, with no implication as to His identity, but to lead them to give His question thus: "Who do men say that I am?"

The disciples answered that some thought He was John the Baptist (as Herod said, Matthew 14:2); some, that He was Elijah; and others, Jeremiah or some other of the prophets. "There was no man then living with whom I could be compared. We do the same thing. When we want to stir men's hearts, we appeal to the dead; when we search for the great, we descend into the grave, we talk of Shakespeare and Caesar, of Charlemagne and Alfred the Great, of Lincoln and Washington. We do not call the name of a man living. This tells very clearly that to them He was a man of tremendous power" (C. E. Jefferson).

"Did you ever think of the vast difference there is between the characters of Elijah and Jeremiah?" questions G. H. Morrison. "The one is a prophet, the other a seer. The other is the prophet of the tender heart. And the remarkable thing is that the common people should have taken these types, which are so wide apart, and should have found in both the same Christ."

In other words, the impression which Jesus made was that of a complex, inclusive personality. You could not exhaust Him by a single portrait. It took the range of the greatest to portray His character.

Motor Car Headlights

The Visolite Transparent Deflector arranged so that the motor car owners will have no difficulty in focusing their headlights to conform with the traffic laws of Saskatchewan has taken the lead in eliminating the dimming of headlights and substituting a requirement that all lamps carried on the front of a motor vehicle shall be so arranged that the light rays shall be reflected or refracted light issuing therefrom shall, when measured at a distance of about six inches, rise above forty-two inches from the level surface on which the motor vehicle stands.

The Visolite brings the uppermost rays down to a proper focus thereby eliminating the penetrating glare so often experienced by car owners with night driving. Only the uppermost rays are refracted in the volume of the light is not lost. Many drivers complain of eye-strain by constantly looking ahead for snags and bumps through the glaring white lights of his car. Visolites from the driver's seat can be seen in reflection above the main beam of light thereby eliminating eye-strain and at the same time sufficiently outlining all objects above the horizon of vision. It is just as difficult for light to penetrate a window as it is for a driver to see through a windshield when raining, without a windshield wiper. The Visolite extends far enough out from the lens to arrest the glare originating at the bottom edge of the reflector as well as keeping dirt off the lens during snow and fog.

Visolites are made of a 25 gauge green celluloid, with an aluminum rim. They are the result of more than three years of experimenting and scientific tests. They are made snugly between the lens and rim, and can be attached to any headlight.

Two Syrians Leave for Native Home to Select Wives

The Canadian Paper may have her good points, but when it comes to selecting a wife to share farm life in Saskatchewan, Sid Gotney and Charles Nashman, who claim Syria as their native home, are looking farther afield. The two prospective bridegrooms here to marry Syria. And the object of the trip is to find themselves two Syrian lasses willing to share the vicissitudes of life on a Saskatchewan farm.

Gotney has farmed for the past fifteen years at Wood Mountain. His friend, who came to Canada as a small boy, owns a farm in Alberta. Both proudly claim to be naturalized British citizens. Both have prospered in Canada and hope to return here at a not long distant date. But they hope it will not be as bachelor.

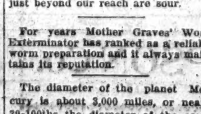

"We still like to console ourselves with the delusion that the grapes just beyond our reach are sour."

For Years Mother Graver's Worm

Exterminator has ranked as a reliable worm preparator and it always maintains its reputation.

The diameter of the planet Mercury is about 3,000 miles, or nearly 30-100ths the diameter of the earth.

Kill warts with Minard's Liniment.

Spring Time Is

CELESTIAL KING TIME

Brew a cup of this fine old vegetable tonic. It is all the spring medicine you need. It drives out winter's poisons, improves the appetite and makes you feel better right away. CELESTIAL KING is good for the whole family. At druggists, 50c & 60c.

May Arrange For Use Of Canadian Stamps

In Payment of Special Rate on Letters

Carried by U.S. Air Mail

Prepayment of Canadian stamps of the special rate of 10 cents for the United States air mail service will be arranged for Canadians; if there is any demand for the service. Discussing informally the extension of the U.S. air mail to Canadian mail matter, Postmaster-General New states here that he saw no reason why Canada could not be given some arrangement whereby Canadian stamps could be used for the extra 10 cents postage on the special rate of 10 cents for the United States air mail service will be arranged for Canadians; if there is any demand for the service. Discussing informally the extension of the U.S. air mail to Canadian mail matter, Postmaster-General New states here that he saw no reason why Canada could not be given some arrangement whereby Canadian stamps could be used for the extra 10 cents postage on the special rate of 10 cents for the United States air mail service will be arranged for Canadians; if there is any demand for the service. Discussing informally the extension of the U.S. air mail to Canadian mail matter, Postmaster-General New states here that he saw no reason why Canada could not be given some arrangement whereby Canadian stamps could be used for the extra 10 cents postage on the special rate of 10 cents for the United States air mail service will be arranged for Canadians; if there is any demand for the service. CANADIAN NATIONAL RAILWAYS EARNINGS

Net earnings in 1926 of \$48,225,029, an increase of \$14,781,731 or 44 per cent as compared with the preceding year, are shown in the annual report of the Canadian National Railways, submitted in the house of commons by Charles Dunning, minister of railways and canals. The gross earnings of the system, including the lines of the Central Vermont, totalled \$21,570,310, an increase of \$21,861,536 over 1925, while operating expenses increased only \$7,079,804.

WALLACE BEERY, RAYMOND HATTON 'RE IN NAVY NOW

It's "back off that line for'd" and "ease your 'midship." Then—"half-speed" and "full" on the dial. A compass swings in the wheel-house and—"We're in The Navy Now," takes to sea.

Such was the scene which ushered Wallace Beery and Raymond Hattson, erstwhile prize fighter and manager, into Uncle Sam's great fighting force. Via the "U.S.S. Louise," masquerading as an army transport, Paramount launched its latest comedy under the title, "We're in The Navy Now," with Beery and Hattson steering under Edward Sutherland's direct eye.

The two dumb doughboys of "Behind the Front" fame have rowed their naval blue. While the "U.S.S. Louise" plied the waters of San Pedro, Beery and Hattson ended their lavish rumor of the job for the screen. Instead of "Sunny France" and the front-line trenches as a locale, these imitatable funsters sea-legged the way over the decks of a transport "looking at the world through port holes."

Such well known comedians as Chester Conklin, of the vaudeville tacheo, and Tom Kennedy are featured. Lorraine Hanson is the vivacious heroine, while Fred Keith portrays the other leading role.

"We're in The Navy Now" comes to the Ophelia Theatre for only day only, Saturday, April 16th, matinee and night.

AFTERMATH OF THE STRIKE

Notwithstanding that the coal strike is now more or less a matter of history, the influence is still a dominant factor in the overseas trade situation, and in all probability will continue to be so for some months to come. Not only has the necessity of buying foreign coal been reflected in the labor market and in the prices paid by home consumers, but it has and will continue to affect the value of the British pound abroad until the final instalment has been met. Payment for much of the coal consumed up to, say two months ago has had to be made by the purchase of United States dollars, and the action of the buyers in putting themselves in dollar funds automatically depreciates the value of sterling—Glasgow Herald.

Mr. S. McDowell, who succeeds Mr. W. Thomas here as superintendent of the local telephone service, will move his family here from Cardston in a few days. Mr. Thomas, we understand, is being transferred to Pincher Creek.

Dr. T. H. Blow and family, of Calgary, spent Tuesday night in Blairmore, enroute from a visit to California. They were travelling by motor, and had to have the car shipped from Cranbrook here, owing to the road over the divide being blocked by snow.

ALGER G. LYNCH, FORMER WESTERN BANKER, DEPARTS

WINDSOR, Ont., April 14.—Walter A. Lynch, manager of the Canadian Bank of Commerce here since 1920 as been transferred to Edmonton. Prior to coming to Windsor, Mr. Lynch was manager of the Commerce at Medicine Hat, and before that was a charge of the Macleod, Alberta, branch—Calgary Herald.

Mr. Lynch was the first manager of the Claresholm branch of the Canadian Bank of Commerce, opening same in 1904. He remained in charge of this branch for some time and operated Nanton as a sub branch, afterwards being transferred to Pincher Creek—Claresholm Review.

John McDougall, representing the Vancouver Trunk and Bag Co., was in town this week. Mack was formerly with the Great West Saddle Co., in this territory, and this is his first visit here in about six years.

By special request of the Amalgamated Society of Fire Insurance Companies, the quartette which was to have appeared at the musical festival has been dispersed. The most they accomplished appeared to have been responsible for a fire which gutted the home of a local family on the morning and the hour of their first and only practice. They were a hot bunch.

Here and There

Toronto capital will develop the only known blue talc deposits in Canada, the bed located about ten miles southwest of Banff. A private company, adequately financed, has been organized, and it is said that development operations will begin in June. White talc deposits are to be found in association with the talc.

To replenish depleted British Columbia herds a carload of mountain sheep from the Banff National Park and another of elk from the Cairn Park are being brought in to the province and will be released in the mountains near Spence's Bridge, according to M. B. Jackson, chairman of the Provincial Game Conservation Board.

In order to establish a model settlement just outside Winnipeg, a party of Catholic colonists sailed on the Canadian Pacific liner "Marchioness" for Saint John and reached Victoria in charge of Father Keir, of the German Catholic Immigration Association. The party consisted of about 30 families and came under the direction of the Canada Colonization Association.

Included in the programme of new construction in the Manitoba district of the Canadian Pacific Railway is the building of new standard gable houses to be located at Upperville, Toulon, Peterfield, Komany, Gandy, Pettapiece and Dominion City. New section houses will be built at sixteen points in the Manitoba district while a mechanically operated cooling plant with a capacity of 100 tons will be built at Pulpur Point.

Saint John Nelson Christananda, describing himself as a Christian Apostolic Preacher, and originating from Southern India, arrived in Canada recently on the Canadian Pacific liner "Montrose" from England. He is a "Sadhu" which translated signifies a Saint and is conducting a short mission of about two months in Canada. Mr. Christananda stated that he had been preaching through Europe and had visited about twenty countries on that continent. His creed, he asserted, associated with all Christian churches without being bound down by any dogmas. He said he was welcomed by all religious organizations.

A consignment of Canadian manufactured ice cream shipped from Saint John about the middle of last month featured the menu of a banquet tendered to over 400 British buyers by the Hon. P. C. Larkin, Canadian High Commissioner in London. On account of the large Canadian representation at the banquet the Commissioner ordered the cream through the Purity Ice Cream Co. in Montreal, and was handled during its 3,000-mile journey across the Atlantic by the Canadian Pacific Express Company. A ton of ice was placed aboard the C. P. liner "Minnesota" to insure its arriving in perfect condition.

Here and There

When the internal trouble which has been devastating China for the last two years subsides, a tremendous market will open up for Canadian wheat in that country, according to J. R. Scott, representing a large British firm at Harbin. He says his way back to London to report on his trip.

Bounties paid for bobcats in New Brunswick, by the Department of Lands and Mines, have a far exceeded the figures for the corresponding period of last year, according to L. A. Gagnon, game warden, who states that the cats are being killed in greater numbers each year.

Ontario buyers of milk cows have about completed the purchase of five carloads of Guernsey cows from Colchester, Cumberland and Pictou counties. The buyers are Anderson Brothers and Messrs. Graham and Calder from the Hamilton district.

The first auction sale of horses that has taken place in Montreal some years was opened at the F. End Stock Markets. March Stabling was put at 262 horses and it was stated that approximately 100 horses were sold. The demand was mostly for heavy draught horses—Percherons, Clydesdales and the like for carters and for lumbering purposes, coming chiefly from Alberta and Saskatchewan, and some from the middle west.

Consequent upon an agreement reached at a general conference of Canadian and United States telegraph companies the Canadian Pacific Telegraphs have announced that code words will be accepted at all their offices in future for day and night letters. This departure will affect both Canadian and international business, the companies concerning the Postal Telegraph Company, the Canadian Pacific Telegraphs, the Canadian National Telegraphs and the Western Union Telegraph Company.

The development of a new industry from the propagation of muskrats and other water-bearing animals, in land and water, are leased from the Province of Alberta through agreement with the Dominion Government, was indicated by Hon. George Hoadley, Minister of Agriculture, in committee discussion in the Alberta Legislature. The amendment would give the Government power to regulate and license fur and game farms, and to lease the Dominion water and land areas for the propagation of such animals.

A keen competitor to Botby Wiley the Nova Scotia world's champion milk and butter producer, has been discovered at Fox River, Cumberland County. Mr. Henry S. Kerr of this place, claims that he owns the champion butter producing cow in his class. This cow is a grade Ayrshire and Durham cow, which has just recently freshened. In one week she produced 392 lbs. of milk, which churned 20 1/2 lbs. of butter, after deducting approximately 12 quarts of milk and 1 1/4 quarts of cream for home consumption. This record is creating keen interest.

Following upon his recent announcement to the effect that a Toronto firm of architects would be employed in connection with the erection of the new Canadian Pacific Hotel in that city, E. W. Beatty, Chairman and President of the Canadian Pacific Railway, recently stated that Messrs. Sprout and Rolph had been appointed associates with the firm of Ross and Macdonald, of Montreal, to handle this work. Messrs. Ross and Macdonald have been employed in Canadian Pacific work for some time, the latest of their buildings being the company's new hotel at Regina. It is desired that the new hotel shall be thoroughly representative of the city in which it stands and the appointment of a firm of Toronto architects is made to further this purpose.

The many local friends of Lou Ward, a victim of the head-on train collision near Seven Persons, sympathize with him in the loss of both hands. Ward has played hockey in this district long enough to be fairly well acquainted.

Spence Lyons, one of our oldtimers, recently lost the sight of one of his eyes. Spence, who has just come out of the hospital, says he does not know the cause, but the water wagon for him hereafter—Ferne Press.

Here and There

Of the 228,000,000 acres of land now to produce the 1926-27 wheat crop of the world, Canada accounts about 10 per cent.

Alberta, formerly 150 per cent. straight wheat farming country, has changed radically in this respect in the last fifteen years. The wheat yield of 1926 represented only 15 per cent. of the value of the agricultural products, which totalled \$264,000,000 for the year, the greatest in the history of the province.

The flow of settlers into western Canada for 1927 commenced in earnest recently when two special Canadian Pacific trains brought more than 400 persons into Winnipeg. About 200 of the new arrivals were destined for Manitoba; 100 to Saskatchewan, while Alberta and British Columbia absorbed the rest about equally.

The value of building and construction contracts awarded in Canada in 1926 was \$372,947,000, compared with \$297,973,000 in 1925, an increase of 25 per cent. Last year's total was the highest for several years. Development in the mining, power and paper industries in Canada was an important factor contributing to the activity in building during the past year.

When the Canadian Pacific steamship Montroyal docked recently at New York, after completing her first cruise to the West Indies of the year, she resembled a floating menagerie, for there were assembled on board over 200 love birds, parrots and monkeys. These pets were bought by passengers on the cruise. During the month's cruise the vessel touched at fourteen ocean ports and visited thirteen countries.

D. B. Hanna, chairman of the Ontario liquor control board, draws a salary of \$20,000. Two other commissioners, Hon. R. J. Manion and Stewart McLaughlin, draw \$10,000 each.

Uncle Tom says that many men looking for a soft place will find it under their hat. He also says that it takes a mighty important woman to get into the illustrated section of the newspapers these days without a bathing suit on.

G. Swanson, engineer, and C. D. Baines, trainmaster, were killed in a head-on collision of two freight trains near Seven Persons on Saturday last. The collision occurred during a fierce blizzard. Both men had homes in Lethbridge.

The board of directors of the Drumheller skating rink, have asked the town council to consider taking over the rink—lock, stock and barrel, or otherwise remit taxes.

A most successful sale was staged by the ladies of the United church in the Moose Hall this afternoon, followed by a concert by the children. A neat sum was realized.

The Drumheller school board has placed a requisition with the town council of Drumheller for the sum of \$32,650, claimed necessary for operation of schools this year. Most of the teachers are to receive salary increases.

Prize-winners at the whist drive staged in the Lodge Hall last night by the Crowview Rebekahs were: Ladies, first, Miss Anna Pozzi; second, Mrs. E. Hinds; third, Mrs. W. McVey. Gents' first, E. Elliott; second, W. Archer; third, P. Christophers.

The people of the town of Cardston have started a "Home Beautiful" campaign. Would be well for Blairmore to follow suit and at least have a "Clean-up Day."

The total revenue under the motor vehicles act of Alberta for 1926 was \$1,153,235.85, compared with \$954,411.85 the year previous. The gasoline tax brought \$423,777.96.

Mrs. Minnie Short, mother of Messrs. A. F. Sidney, George and Harry, of Coleman, and Mrs. W. J. Comber, of Vancouver, passed away at Lethbridge on April the 2nd. With the bereaved ones we extend our sympathy.

The fifty-mile walking race put on annually by the Canadian Legion at Calgary, will be stepped off tomorrow, Good Friday. The walkers will travel eight times around the Herald road race course.

Flourishing Immigration Prospects

Picture 1: A—Typical examples of juvenile type of immigrants to Canada. No. 4 shows 7 children who arrived alone recently. 2. Immigrants crossing the border. 3. A group of immigrants waiting for the Dominion.

The active immigration season of 1927 that has just opened will see, according to authoritative information given out by the Department of Colonization and Development of the Canadian Pacific Railway, the largest and most effective addition to Canadian population of any similar period since the outbreak of the Great War. In the opinion of authorities it is not unreasonable for the Dominion to expect over 200,000 more new citizens, or about 70,000 more than during the year 1926. During this year Canada received 135,984 settlers.

Several factors tend towards this promised increase, of which one of the most potent in the gradual evolution of systems and a development of new machinery that has made the organization well nigh perfect. Further reductions in ocean and rail rates from the British Isles have induced considerable numbers to submit to the examinations for acceptance under the cheap passage. Applications at the rate of several a day are being received, it is reported. Already

this year well over 3,000 settlers have been landed in Canada by the Canadian Pacific liners plying between this country and the Motherland. It is interesting to note that about sixty per cent of the applicants are miners and others who have some knowledge of and experience at farm work.

The volume of pertinent inquiries from United States Agriculturalists with regard to western Canadian farming prospects, has been much heavier this year than for some years is the report. This is regarded as a most reliable index to the trend of the movement. A new and significant movement to develop however is that of tobacco growers from North and South Carolina, Virginia and other states to Western Ontario, being attracted by the new prospects now facing the Canadian tobacco growing industry.

Though land settlement conditions have drastically changed and the tendency is to place newcomers on vacant lands within reasonable distance of the railways, it was pointed out that it was a mistake to consider that homesteading is altogether a thing of the past as a factor of western Canadian development. During the year 1926 homestead occupations in the west amounted to an increase of 60 per cent over the occupations for the previous year, and accounted for the occupation of nearly a million acres of raw land. This movement in continuing as is evident in the figures of filings in January 1927 which were 32 per cent. more than of the same month of the previous year.

The most significant factor today, it was pointed out, is the local colonization board, through which the general interest in immigration and colonization takes practical shape under the direction of the railways. About 150 similar boards now exist in western Canada.

Juvenile immigration, the importance of which is being increasingly realized in recent years, promises to be very heavy during the year 1927, all of which is being directed towards the land.

Programme

Crows' Nest Pass Sunday School Musical Festival

The third annual Crows' Nest Pass Sunday School Musical Festival will open in Blairmore on Monday morning next.

The programme is somewhat similar, but slightly longer than last year's and judging by the number of entries in the hands of the committee, it is doubtful if the festival can be concluded in the three days.

The following programme is complete and has been printed in book form by The Enterprise, to be distributed during the festival.

OFFICERS

President
MR. L. L. MORGAN

The Moser Cup

The Moser Cup, donated by Mr. W. H. Moser, will be awarded to the contestant gaining the highest marks in individual piano competition.

The Blairmore Elks' Cup

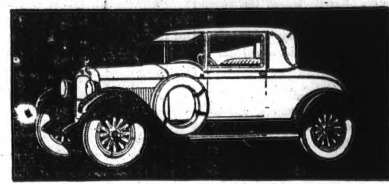

The Blairmore Elks' Cup, donated by Blairmore Lodge No. 15, B.P.O. Elks, will be awarded to the contestant gaining the highest marks in individual violin competition.

The Cowley Women's Institute Cup

The Cowley Women's Institute Cup will be awarded to the contestant gaining highest marks in individual elocution competition.

Besides the above mentioned donations, the Festival Committee received a donation of \$100.00 from the Town of Blairmore; \$25.00 from Mr. G. H. S. Whitehead; \$25.00 from Restall given by Miss Madeleine Chardon and Mr. W. H. Moser; \$20.00 from the Cowley, Alberta, Women's Institute, and \$20.00 from Mr. L. L. Morgan, Blairmore. The committee wish to convey their gratitude to all donors for their assistance. Donations are still receivable and will be acknowledged later.

Smooth as the Flight of an Arrow

A REVELATION awaits you in your first ride in the New and Finer Pontiac Six—a revelation of comfort, of smoothness, of power, of flexibility that you never dreamed attainable in any car of comparable price. And the reason is evident. In the New and Finer Pontiac Six General Motors turned their vast resources, their stores of knowledge and skill, the facilities of their matchless laboratories and proving grounds, their great advantages of purchasing and production, all to the task of providing a type of high-quality, six-cylinder automobile such as had never before been available at anywhere near so low a price.

The result is a car of long, low, graceful lines, of exquisite design and coloring, of the latest body styles, of the utmost completeness—a car as smooth in performance as an arrow's flight, quick as a flash to respond to your demands . . . and a car that brings quality-six performance to the widest circle of car-buyers. See the car—investigate the prices.

BLAIRMORE ALBERTA

THREE PASS FIFTEEN YEARS AGO

(The Blaimore Enterprise, 1912)
February 20.—The Davenport Co. Company, with a capitalization of half a million, has an output capacity of 800 to 1000 tons of coal per day. F. R. Mason, of Spokane, is president; C. Husey is secretary-treasurer and E. T. Fitzsimmons is resident manager. More than 32000 has been invested in Burns townsite lots. A large steel bridge is being built across the Old Man river, affording easy access to the South Fork country. Burns enjoys the unique distinction of having a splendid Presbyterian church just opened, and plans are being considered for a \$10,000 hotel.

The adjourned inquest, touching the death of George Lakatoz, was held at Frank on Thursday last and concluded Friday. Coroner Pinkney presided. The jury, J. W. Gresham (foreman), A. V. Lang, M. H. Murphy, J. L. Evan and W. I. Huston returned the following verdict: "That we, the jury, unanimously come to the conclusion that George Lakatoz came to his death from wounds caused by revolver shots, and consider those shots were fired by Sam Willinsky and were fired wilfully." Sam Willinsky appears before a higher court at Macleod today for preliminary hearing.

A large audience attended the Mission Hall on Monday night to hear Dr. Baker's second lecture on "Crime, its Prevention and Cure."

Blaimore has a fire chief. When his services are needed, phone up the Bellevue mine—only four miles away.

C. B. Bartlett was a visitor to Macleod on Monday.

J. R. Smith, of the West Canadian Collieries, Ltd., went out to Nelson on Monday.

"The Private Secretary" drew a crowded house here on Saturday night and the production was much enjoyed.

The Palmist Sisters, one of the best musical companies on tour, will appear at the Blaimore opera house on a Tuesday night next.

The Jeanne Russell Co., appeared at the opera house on Monday night in "The American Girl" and were greeted by a full house. On Tuesday night they presented "David Harum," and on Wednesday, "Two Married Men."

The Imperial Oil Co., has located here, their storage tanks being set up just west of the C.P.R. station.

Constable Meade has been transferred from Lundbreck to Blaimore and is succeeded by Constable Egan.

A. I. Blais left Frank on Saturday for Ontario, where he will spend a few weeks.

The guy who visited Coleman a week or so ago with a view to raising to life a newspaper in that town got too many inward applications of firewater and left town quiet as a lamb. "Jackie" didn't have the dough to rise.

Bill Chappell is doing a big business in Bellevue real estate.

March 7.—At the annual meeting of the congregation of Central Baptist church on Wednesday evening, the following were elected board of deacons: F. M. Pinkney, J. W. Gresham, J. J. Thomas, with J. W. Gresham as treasurer.

J. M. Carter went to Calgary on Tuesday to attend the Conservative convention as representative of this district.

C. Chestnut has opened a large restaurant in the Budd block.

The First Baptist church property on the corner of 3rd Avenue and 9th Street, Lethbridge, has been sold to an English syndicate for the sum of \$22,000, and work of erecting a more pretentious church will commence shortly.

The Tom Marks Co. will appear at the local opera house on March 14th, in "His Irish Honor."

A bachelors' club has been organized and the house of E. Morino, on Eighth Avenue, has been fitted up accordingly, where a staff of ten of the unfortunates (or fortunate) hope to distract their minds and attentions from family affairs and devote their leisure hours to bachelorette merriment. The club has been named "Shamrock" and the lady element claims that the members are all of the green variety.

The marriage took place last evening, at the Institutional church, Coleman, of Miss Mabel Johnson, of Lundbreck, to Mr. Joseph Plante, of Coleman.

Mrs. Eneline Pankhurst, well known suffragette leader, was arrested and sent to jail at London, England, last week, for leading window smashers.

Last month The Enterprise enjoyed the privilege of putting out five weekly issues in twenty-nine days. We hope for a similar opportunity in the year 1940.

Mr. Scott, the new manager of the Imperial hotel at Frank, assumed his new duties this week. Already many changes are being made.

Harry Antel, of Coleman, was on Wednesday, February 28th, united in matrimony to Miss Maggie Hogan, daughter of Mr. and Mrs. Robert Hogan. The ceremony was performed by Rev. J. F. Hunter at the Institutional church.

The preliminary hearing of Sam Willinsky, charged with the murder of George Lakatoz, took place at Frank last week end, before Justice P. J. Biddell, of Cowley. W. M. Campbell, of Lethbridge, appeared for the Crown; L. L. Putnam, also cited with Colin Macleod, for the defense. Willinsky was remanded for trial, after seventeen witnesses had been heard.

PREVENT FOREST FIRES

You May Lose Your Job If Forest Fires Continue Unchecked

Hundreds of thousands of Canadian men and women depend upon the forests for their livelihood. You may be one of them.

A lighted match, a cigarette butt, thrown down carelessly in the woods, or a campfire left smouldering, may cost you your job. It is up to you; be careful of fire when in the woods.

CHARLES STEWART
Minister of the Interior.

Save Your Forests

GROWTH OF EDUCATION IN ALBERTA

During the year 1926, thirty-nine new school districts were erected in Alberta, compared with twenty-five in 1925. Three rural high schools were also created, making five new in operation, at a cost of \$6.00 per quarter section.

The total enrolment in public and high-schools of the province for 1926 was 150,927, compared with 147,794 in 1925. The daily average attendance was 110,927. The rural schools were able to keep going 184 days in 1926, compared with 178 in 1925. The

new grants provided for rural schools under certain conditions brought benefit to 667 one-room schools.

There is a growing demand for secondary education, especially in rural schools, where 62 per cent of those in Grade VIII, took high school entrance exams, compared with only 48 per cent in 1925. A total of 3428 left school at the age of 15, which is a decrease over former years. A total of 1189 left at Grade VIII. There are 3041 school districts in operation in the province.

In the Technical Institute, there were 1165 students. In the special correspondence course for children in

outlying rural districts, there were 225 enrolled, with a total of 900 since the course was instituted.

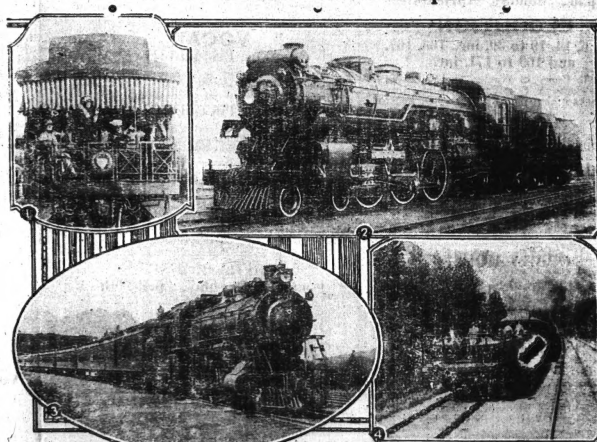

At the Alberta University, there were 1302 students registered in all courses in 1926.

Mrs. McIlherson had been to a political meeting, and when she returned home she regaled her husband with her party views.

"We are going to sweep the country, Pete," she exclaimed.

"Then," remarked her husband, "you had better start with the kitchen, dear."

Where Steam Beats Air Speed

1—Seeing the world from the rear of the Trans-Canada. 2—C.P.R.'s most powerful locomotive will haul the Trans-Canada. 3—Through the scenic route of the Rockies. 4—Open air observation car a feature of the mountain journey.

Beating the air mail's record in carrying mail across the continent is not in the regular schedule of the Trans-Canada the Canadian Pacific's stellar summer transcontinental train. The facts of such an incident are brought to mind through the announcement on headquarters of the Canadian Pacific that the Trans-Canada will again operate between Vancouver, Toronto and Montreal from the middle of May till about the end of September. Such a record was made in the middle of last July and was unintentional. By a coincidence letters were forwarded to one of the officials in Montreal by air mail and by the Trans-Canada both by a stamped at approximately the same hours and date. Even on previous it was shown that the letter forwarded by train arrived about 19 hours ahead of the air route.

This greyhound of the steel rails within the few years of its operation, become widely popular among travellers from all parts of the world.

In planning the service instituted by the Trans-Canada, the officials

of the company bore in mind many details that afford comfort and convenience to the traveller. It takes 15 minutes to run between Montreal and Vancouver and about three hours less from Toronto. The schedule has been so arranged that the train arrives and departs from the principal business centres, across the continent at suitable hours.

The traveller who wished to make best connections at Atlantic and Pacific ports have been kept in mind; and the vacationist visiting the Canadian Rockies who wishes to reach its beauty spots quickly and at convenient hours. In arranging for all this the schedule of stops has been cut to a skeleton, making the journey all the more enjoyable. The train, with the exception of certain concessions to prior car passengers, carries only sleeping car passengers.

The route of the Trans-Canada is the track of Canadian history. From the scenes of Indian fights and international feuds in the province of Quebec, via the route of the French explorers and fur traders in Ontario; round the north

shore of the Great Lakes to Winnipeg, once the Fort Garry of the Hudson's Bay Company, then across the prairies, which have not ceased to echo with the warwhoops of the now peaceful Indians; through the Rockies with their memories of Fraser, Mackenzie, Palliser and Rogers, and down at last to Vancouver which was once hurrowed by the keels of the Spaniards. The Trans-Canada links the whole.

One of the features of the company's most up-to-date equipment used on this train is the new locomotive of the well-known 2500 class. The 2-3-4 type, the very latest model which will be used is the most powerful of the company's engines. The equipment is all-steel throughout, the standard sleepers being of the latest design and luxuriously appointed. In the compartment-observation car one can sit at ease and watch the whole panorama of the Dominion roll by. When the train climbs into the mountains a special open air observation car is attached and in this one can gaze at an unrestricted view of the passing grandeur.

Take command of a COMMANDER

Now \$2495.00

Delivered fully equipped, tax paid in Blaimore, including front and rear bumpers, 4-wheel brakes and snubbers

We offer to lend you this new Big Six Studebaker Brougham to test for yourself. It will out-speed, out-climb and out-live any car within a thousand dollars of its price

THERE are no strings on this offer. You take a Commander. You drive it. You judge Studebaker by what the car does in your hands. No obligation except to tell your friends about it. Only by having scores of motorists in this city drive this high-spirited automobile can we win public appreciation of Studebaker's wonderful achievement.

You know this—

Studebaker dependability having been recognized universally. The grace and beauty of Studebaker's custom cars have won general admiration.

—but not this!

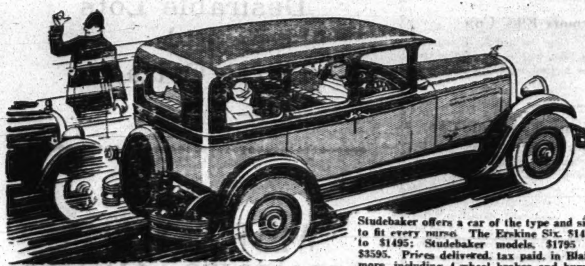

But the public does not yet realize how far Studebaker performance outdistances all competition.

Now prove it for yourself

On Studebaker's Proving Ground we checked The Commander against competitive cars—satisfied ourselves by exhaustive tests that it would out-speed, out-climb and out-live any other car, six or eight, selling for less than \$3500. Now we invite you to sit behind the wheel yourself and prove The Commander's supremacy.

The Commander is waiting for you. Try it out—no obligation!

Crows' Nest Pass Motors
Phone 105 Blaimore, Alberta

Studebaker offers a car of the type and size to fit every man. The Executive Six \$1445 to \$1495; Studebaker models, \$1795 to \$2395. Prices delivered, tax paid in Blaimore, including 4-wheel brakes and bumpers, front and rear.

STUDEBAKER

Seventy-five years young

EASTER

The Easter season celebrates two great truths of Christian faith—the redemption of mankind and the resurrection of the Redeemer. For the test of that faith, from the beginning, was the resurrection. "If Christ be not risen again, your faith is vain, for you are yet in your sins." And the foundation of the Christian religion is the redemption, through the atoning death of Christ. "For I delivered unto you first of all, which I also received, how that Christ died for our sins according to the scriptures." Let us investigate these truths in the message of this day.

No questions can be asked of greater import than these: did Christ die for our transgressions? did He truly rise from the dead? Our idea of the nature of society upon earth; our concept of the nature and destiny of man depend upon our answer to them. For the Christian idea of society comprises a civil order to care for our earthly needs and a spiritual order to care for the needs of our soul, and to lead us to a final spiritual destiny. A denial of the redemption and resurrection destroys such a basis of society. It destroys the moral order, it destroys the idea of an ultimate purpose to life; it destroys the hope of anything beyond life's little fleeting day. It makes of life

"A moment's halt, a momentary taste of being from the well amid the waste and then the phantom caravan has reached the nothing it set out for."

It is clear that they are potent truths. Even the ignorant sense that the plundering mobs that ravage Mexico today attack religion first and pillage the hacienda afterwards.

In common with other religious doctrines, the redemption is often falsely conceived and wrongly expressed. I do not imply that Christ became guilty of our sins; nor odious to God and cursed by Him; nor suffering the torments of the damned in His descent into Limbo, so that nothing remains to be done by us to attain salvation.

It does not mean that Christ saves us only by doctrine and example like the prophets and the martyrs. It is not a doctrine borrowed, as the out line of history suggests, from the rude rites of the East, and imposed by St. Paul on the Christian religion. Nor is it an idea opposed to the goodness of God. For in the scriptures it is shown to be an act of God's goodness and mercy. He so loves mankind as to give His only begotten Son for its redemption. And the Son so loved us that He freely offered up His life, in order to render to His Eternal Deity an act of reparation and honor equal to the offense and dishonor of man's sin.

It does not imply a sense of vengeance in God; but only His attribute of Justice. For a true justice was committed by sin, and in the nature of things a reparation had to be made. God loves us with an eternal love, and He took the best means to satisfy justice and destroy the evil sin.

Nor was the act of redemption the unjust punishment of the innocent for the guilty. It was the acceptance of a sacrifice which Christ made when He offered Himself for the salvation of others. As to how this free oblation obtained pardon for the guilty, we do not know. We can understand, however, that it is not contrary to God's goodness to accept so sublime a sacrifice. But the mode, like many other processes between cause and effect, is beyond our intelligence.

Still less is the efficacy of that sacrifice to be sought in the physical side of Christ's death considered alone. Rather is the redemption to be found in that death freely suffered from love and obedience and from the personal union in Christ of both God and man.

We may then consider the redemption as an act which restored the fallen human race to the friendship of God. This restoration was caused by Christ offering satisfaction for us and in our stead. He is to be considered the moral head of the human race.

When the scripture says "You were

redeemed at great price," it does not mean that anything was offered the evil one to liberate mankind from his power. But it means that the offended majesty of God was appeased.

Was the redemption necessary? Since it is due to God's goodness and mercy, the answer must be, "Not in the full sense of the term." But on one supposition it was necessary: namely, that God saw fit to require a satisfaction equivalent to man's sin. Because "injury is in the person injured, and satisfaction or honor in the person honoring." For example, if Edward Prince of Wales, were insulted while on a visit to Canada, not the rude person offering the insult, but the government of Canada would be considered alone able to offer an equivalent apology. The offense of sin, therefore, was beyond measure as being in God, and the honor or satisfaction to repair it, fully could not come from man, but only from the Divine Person, Jesus Christ.

Deeply rooted in the scriptures and clearly expressed in them, is the doctrine that Christ redeemed us not only by teaching and example, but most of all by His atoning death.

A striking symbol of it was the Hebrew scapegoat from Egyptian bondage and their deliverance from death through the blood of the paschal lamb sprinkled on the door post of their homes. From this symbol and from the prophecies, the Jews could understand John the Baptist when he pointed out Christ to them, saying "Behold the Lamb of God! Behold Him who taketh away the sins of the world."

The plural death of Christ is evident from the prophecies of Isaiah. To vividly foretell Christ's suffering and death and their atoning nature.

"But he was wounded for our iniquities, he was bruised for our sin: all we like sheep have gone astray, every one hath turned aside into his own way; and the Lord hath laid on him the iniquity of us all."

"He was offered because it was his will . . . he shall be led as a sheep to the slaughter, and shall be dumb as a lamb before his shearer and he shall not open his mouth."

But the rabbis were blinded as to the true nature of their Messiah's mission. They wanted a king an avenger of a Jewish community. They would not understand aught of the prophecies concerning him.

In the new testament there are many texts on the redemption. A few will suffice. In St. Luke we find Christ stating His mission in these words: "For the son of man is to seek and to save that which is lost." In St. Matthew, He tells us it was to be done: "From that time Jesus began to show His disciples that He must go to Jerusalem and suffer many things from the elders and scribes and chief priests and be put to death and the third day rise again."

In such varied and explicit way, the scriptures tell of the redemption and its effects—remission of sin and life everlasting.

Note in the text above quoted, "Put to death and on the third day rise again." This brings us to the event proper to Easter. For if Good Friday saw our redemption worked out, it gave us one of the chief dogmas of the Christian religion, Easter Sunday, gave us the risen Christ and the foundation of faith in Him.

How fitting an end the Divine Dramatist gave to the tragedy of the cross! The divine power which renews the face of the earth from year to year, revived on Easter morn, the pallid body of Christ, conferred on it, without changing its identity, the qualities of immortality and brought it forth in glory from the rock-hewn sepulcher.

What a spot-light of criticism played on that event at its inception! How the white light of investigation, throughout the ages, has been played on it by faithful and infidel alike! Every incident and circumstance, however small, considered times without number! For mankind must feel that here is a phenomenon that makes all the difference in the world, even all the difference in eternity. If Christ arose from the dead, He is God. His enemies must tremble: His

friends rejoice. If He did not arise, enemies of virtue may laugh at supernatural retribution, and those who have faith in Christ are of all men most miserable.

Strange to relate, Christ's chosen twelve were the first harsh critics and headstrong skeptics as to His resurrection. Strange it is because He told them in explicit words. Even the holy women, usually of more faith than men, went to the holy sepulcher to embalm a dead body, not greet a risen one. The disciples would not believe Magdalen. "And they hearing that He was alive and seen by her, did not believe."

The doubts of Peter and John began to break down when they came to the tomb. They found the stone rolled back, the guards gone, the tomb empty, the shroud and clothing lying about. But as for the other nine, "These words seemed to them as idle tales and they would not believe them."

The chief priests, who put Jesus to death, paid the soldier-guards to give the following version of it "say you to His disciples came by night and stole him away when you were asleep."

Two of the disciples on the road to Emmaus told the risen Christ Himself, whom they were kept from knowing, about the idle tales of His resurrection; how they were disappointed in the hope that He was to redeem Israel! Still they excused themselves for having believed in Him for "He had been a prophet, mightily in word and work."

Thomas was the greatest doubter of them all. He demanded motives of credibility that no normal mind could resist. He exacted the test of touch and recognition of the wounds in the members and in the side of Christ. Christ granted what he asked and then rebuked him for his doubting disposition. Christ rebuked the others, too, for being stupid and slow to believe the prophecies of His resurrection; for being slow to understand that it behooved Him to suffer and so to enter into His glory.

Forty days he remained on earth, appearing from time to time to His apostles and to friends. Nor were His visits momentary, but prolonged. He spoke with them, even ate with them. He completed His teaching on doctrine and on the work of the church.

In addition to the testimony of multitudes that saw the risen Christ, there is a lot of evidence from circumstances. The body of Christ was placed in a rocky tomb hewed out of a hillside. The tomb was sealed: a guard placed on it by the Roman authority. Pilate, the governor, was asked by the Jews to guard the tomb in order to prevent, if necessary, the friends of Christ from stealing the body and faking a story of resurrection. That tomb was empty, but no one was accused of robbing it.

On Good Friday afternoon the apostles were discouraged men. They felt their cause was lost. Their hearts were crushed on account of their master's terrible death. Their souls were sick from illusive, blasted hopes: "But we thought that it was he that should have redeemed Israel."

But after Easter morning the were changed men. In the very city where Christ had died three days before, they went out and converted thousands to a belief in His resurrection. The Sanhedrin tried to bluff them into silence. But their quiet courage prevailed. "We must obey God rather than men." Testimony of witnesses and of facts is the basis of Christian belief in the resurrection of Christ.

In all after times there have been men, averse to the supernatural, who have denied the resurrection and tried to explain it away. Their most common theory is that the apostles were deceived; that they were victims of hallucination. What can be said to a statement like that? It has no probability whatever. The apostles were practical men of good minds and good sense. Their lives and works bear the stamp of wisdom and ability. That is a fair test. Victims of delusion, disordered minds so unstrung as to imagine the resurrection of a dead

man, could not pass that test. Mental disorder has its symptoms, well known to doctors and neurologists. The apostles were neither deceived nor deceivers.

The absurdity of the objections can be seen if you admit them and then examine what follows. If Christ did not rise from the dead, He was a false prophet and a deceiver; His apostles deluded fools; the Christian religion a product of deceit and delusion! The very universe shrieks denials of such blasphemy. The influence of Christ and of true Christianity on society at large and on the individual man prove that it is not an offspring of fraud, but a child of truth whose author is God.

In concluding our thoughts on the redemption, let us avoid false security. Each one must play his part. Each one must co-operate with Christ. One day a young man asked our Lord this question: "What must I do to be saved?" Christ did not answer "You have nothing to do—I have done it all." But rather He said "Keep the commandments," and again "If any man will come after me, let him deny himself and take up his cross and follow me." Christ is the corner-stone of our edifice of immortal life. We to the builders who reject it. "Whoever shall fall on this stone shall be broken, and on whomsoever it shall fall, it shall grind him to powder."

Christ is the expression of the Eternal Father's love for mankind. He is the way, the truth and the life.

"No road in all the world until he came,
No star until he shone upon life's sea,
No song in all the world until he spoke,
No heart until he gave his heart to me."
—REV. R. J. DONOVAN,
Bellevue, Alberta.

THE NOON HOUR

Quiz—"Why is a fast auto driver called a scorcher?"
Biz—"He goes at a hot pace, makes pedestrians boiling mad, warms up the police, gets roasted in court and calls it a burning shame."

An elderly married couple in Scotland (who were childless) much to the surprise of their friends adopted a young boy.

"Dear me, Mrs. McGregor," said one of her neighbors, "I hear that you've adopted a laddie. Why did ye no have a girl; she would have been more useful about the house than a boy, surely?"

"Aye, maybe ye're right," answered the other thoughtfully, "but ye see we had a wee laddie's bonnet in the house!"

Customer (in lunch room)—"Waiter, give me milk and shredded wheat biscuits."

Waiter (shouting to kitchen)—"Cow juice and two straw pillows."

Parent—"Sir, why did you kiss my daughter last night in that dark corner?"
Youth—"Well, to tell you the truth, now that I have seen her in the light, I sort of wonder about it myself."
Teacher—"James, what does your father say before he cuts dinner?"
James—"Go easy with the butter, kid. It costs sixty cents a pound!"

A doctor received the following note from a patient:

Dear Doctor—The mustard plaster you prescribed for me twice a day may be all very well, but they're so hot I can't eat more than one a day."

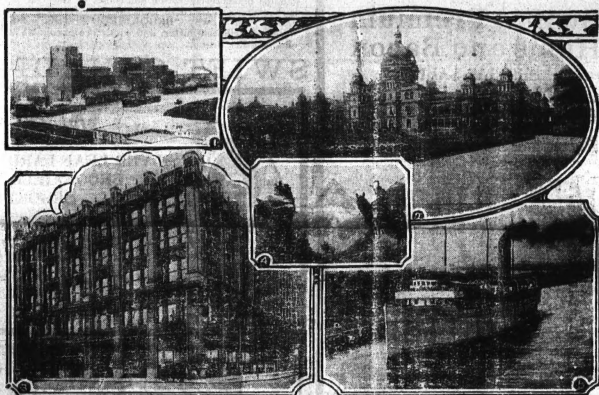

A youthful Sunday school teacher vouches for the veracity of this one.

The Sunday before Christmas she was telling her group of mischievous youngsters the story of the Child in the Manger. They listened attentively, even forgetting to squirm and wriggle. As she came to the climax of her story, she paused to ask: "Now, boys, when the Three Wise Men saw the Babe in the Manger, what do you think they sang?"

To her utter amazement, one youngster shrieked, "Yes, Sir, That's My Baby!"

A Scotchman stooped down to pick up some loose change he had scattered over the beer-shop floor. When told that the place is never swept, he gave up the quest.

Canada's Diamond Jubilee

1. Grain Elevators at Fort William. 2. Home of the "New Outlook" at Toronto. 3. Victoria in Western Point. 4. An Excursion Train through the Rockies is a High-Light of the trip. 5. A Trip Down the Great Lakes by the Itinerary.

The Dominion-wide celebration of Canada's sixtieth year of Confederation which is being planned for July of this year, will be the most remarkable and extensive ever held. The last links of a united Canada were placed in position forty years ago with the completion of the Canadian Pacific Railway. It is in furthering the bond between the peoples of the east and the west that this country will be engaged to a large extent during the celebration. One of the most spectacular plans for bringing the people of all parts of Canada together under pleasant auspices and at the same time affording them an opportunity of gaining greater first hand knowledge of their country through personal contact has been arranged by the New Outlook, official organ of the United Church of Canada. On June 25th, a "million dollar" special train will leave Toronto with a limited number of passengers from the eastern provinces abroad, and follow the confederation route. The "Confederation Special," as it will be called, will be operated on the all-expense plan which will enable practically all who have the time to travel to do so. It will touch all the principal cities and resorts in the west, and operate for twenty-one days. The hospitality of the westerners is well known, so it is not surprising to learn that when the first announcement of the train was made, organizations and individuals in every city included in the itinerary offered to entertain the party and see that it was given every facility for sight seeing and enjoyment. The latest invitation is from the Prince of Wales's Ranch at High River to which the members of the special train party will motor from Calgary on July 1st.

CORRESPONDENCE

Blairmore, Alberta,
April 12, 1927.
Editor Blairmore Enterprise.

Sir—I notice in reading the last several issues of your valuable paper that you have given great prominence to the wonderful quartette, namely C. J. Tompkins, Esq., H. H. Griebach, Esq., W. J. Bartlett, Esq., and M. Sartoris, Esq., that is to appear at the forthcoming musical festival to be held in Blairmore April 18th, 19th and 20th. At the same time, you have not seen fit to take the public into your confidence in so far as giving them an outline and short sketch of the quartette's musical career, which is very important at this time.

It is just as well to remind you that the festival is purely amateur as far as competitors are concerned, and anything saving of a professional nature ought to be debarré from taking any part in it. It is my intention, as a festival subscriber, to lodge an objection with the festival committee regarding your appearance, and hope that they will sustain that objection. If they do not see their way clear so to do, then I don't intend to subscribe again, as the public are deeply interested and should be safeguarded. However, in case they do not, and although a competitor myself, it is my intention to enter a quartette to compete against yours, and I am not afraid to give to the public, through your paper, the names of the members of same and a short sketch of their careers.

First we have Paul Baratelli, the great Italian Lyric high tenor, an artist who has appeared before all the royalties known and unknown. At his last appearance in the opera house at Rome, near Italy, before the King and Queen, several persons were seriously injured in the great crowd crushing their way in, and many more were injured in the greater mad rush to get out.

Then we have Arthur E. Pergenskiy, the great Russian double bass, with a deep sonorous voice. The last appearance of this artist was recently at Hillcrest, at a concert for the benefit of Sturton Marshall, when the audience rushed out thinking that Turtle Mountain had commenced to slide again, and thousands of people were moved with compassion and sympathy.

Then we have Robert Gray, that beautiful Scotch ballad singer, the banana king, whose rendering of the beautiful ballad, "I Love a Lassie in a Little Short Skirt," accompanied by the bagpipes, always brings tears to the eyes of the audience and makes them think of the four-foot seam of oatmeal, which used to be mined near Glasgow, but which has petered out, owing to over-capitalization.

Then we have Ed. Royle, whose world-wide reputation as a saxophonist needs no further commendation. As a conductor and trainer, the least said about him the better, as any remarks are only superfluous.

As this quartette are determined to take no chances, and not wishing to disappoint the public, they have in the person of Tom Ede a splendid reserve, who can sing and play in any position. Although he has been in retirement practically for the last sixty years, he is always willing to step in and do his very best in a case of this kind.

The career of this quartette can be seen and read in the "Yule Tides," at Miss Chardon's music studio. As a quartette, we would much prefer that the different pieces to be sung be not given out only at the last minute, just before appearance, as we believe in "first sight or no sight at all."

In conclusion, the writer wishes to state that the appearance of your quartette in opposition to the one mentioned above is downright foolishness on your part, not to mention the presumption; but if you prefer to run the risk of defeat (in fact that question hardly enters into the issue), then by all means compete. But lastly, let everything be above board, as the integrity and honesty of your opponents can be vouched for. I don't mind mentioning that we have

a special throat compound, obtained a legal way through a government permit, and that helps some.

Yours truly,
JOHN BATON

Hillcrest, Alberta,

April 9th, 1927.

W. J. Bartlett, Author and Publisher,
Blairmore, Alberta.

Dear Sir—I desire to thank you for the prompt delivery of The Enterprise each week. In looking over the many interesting items, I notice one of which the people of this town do not pass up without comment, and since FELIX has either died or left town, we find ourselves at a disadvantage as no other medium has come forward, we feel it is up to us to butt in in some shape or form.

It is with regards to your musical ability to which we take exception, as this town is noted for its musical talent, we are sorry to have to spoil your vocal successes, and as no one has come forward with a quartette equal to yours, we take the pleasure in submitting one which up to the time of writing has never been defeated.

We will now proceed to set 'em up. As a quartette we should state that the one we mention has no equal.

Messrs. H. McVicar, T. Casagrande, S. Marshall and Ed. Joyce, with Maud, accompanist.

Yours truly,
SUBSCRIBER.

Andrew Carnegie was once asked which he considered to be the most important factor in industry—labor, capital or brains.

"Which is the most important leg of a three-legged stool?" he replied. There's a mighty good lesson in that.

E. J. Shulman, Canadian Pacific ticket agent at Banff, has been promoted to the position of ticket agent at Los Angeles. He has been with the company for several years and his many friends will wish him the best of luck in his new position. He is the son of A. J. Shulman, travelling passenger agent of the company, at Calgary—Calgary Herald.

The community has been deeply concerned as to the physical condition of little Maxine Mutz, the daughter of Mr. and Mrs. Max Mutz. Referring apparently in her usual good health and happy and snappy spirit, but before midnight hour was stricken with a strange malady, the cause of which has to a great extent puzzled even a group of the cleverest of Calgary doctors. There was partial paralysis with deep discoloration of the body and a later development was loss of sight. The condition seemed to be hopeless, but time has made a change and the daily improvement covering the period of the four days gives promise of recovery, a fact that is received with general and sincere satisfaction. Maxine, always active and bright, is just such a child that makes her much missed during what it is hoped will be only a temporary suspension of her activities, with the worst over and no permanent disability.—Vulcan News.

Father O'Flynn's gardener entered the village store, where Michael Cassidy sold everything from butter to braces.

"Well, Pat," cried Michael, who knew the gardener well, "and what may ye be wantin'?"

"It's his riveance, Mike," answered Patrick. "He wants a square of glass, fourteen by twelve inches."

"For some time the village storekeeper burrowed about amongst a miscellaneous assortment of glass, and then he leaned across the counter, shaking his head."

"Sorry, Pat," said he, "nothin' here fourteen by twelve, but I've a foine bit twelve by fourteen, if it's av any use to ye."

The gardener scratched his head and thought a little. Then, making up his mind on this abstruse problem which had just presented itself, remarked: "Well, hand it over, Mike, perhaps his riveance won't be noticed in the difference."

COWLEY HAPPENINGS

A fresh epidemic of "flu" is prevalent in the district.

Ralph Hamlet, of the Royal Bank staff, Bellevue, was a recent Cowley visitor.

William Brown has returned, after an extended visit with his parents in England.

Mr. Nicholson, of North Fork, has returned, after a visit of several weeks in Calgary.

Owing to bad weather, the dance put on here on Friday night by the G.W.V.A. was poorly attended.

The final whist drive of the season was held here on Wednesday. As usual, an enjoyable evening was spent.

Arthur Tustian, who has been teaching violin at Bowden, has returned to spend the Easter holidays with his parents.

Mr. and Mrs. Clarence Gilmore and family, who have been farming on the Jones' ranch for several years, have moved into town.

Miss Mildred Easterbrook, who has been attending Mount Royal College, Calgary, is spending the Easter holidays here with her mother.

Mr. and Mrs. Lapointe and family, who have resided on a ranch in the Lundbreck district for a few years, have moved to the Jones' ranch, where they will continue farming.

Mr. and Mrs. Walter Scotter (nee Miss Irene Coates) are receiving congratulations on the birth of a daughter in St. Vincent's hospital, Friday, April 8th.

H. D. McMillan, Mr. and Mrs. M. A. Murphy, of Cowley, and Mr. and Mrs. Blanchard, of Burnis, were among the numerous guests of Mr. and Mrs. McKinnon at their dance, in the K.P. Hall at Coleman on Wednesday night.

Mrs. Machin (nee Mrs. Jonas Jones) died at her home in Vancouver and was buried in the Pincher Creek cemetery on Saturday. Mrs. Machin spent several years of her life on a ranch a mile south of Cowley, later moving to Vancouver, where she enjoyed several years before death overtook her.

Following the birth of a son in Lethbridge on Monday, April 4th, Mrs. Earl Welch (nee Rita Coates) died Saturday, April 9th. The funeral was held on Monday, from the United church here to the Cowley cemetery, Rev. Mr. Griffith officiating. A large crowd turned out, the house being packed to standing, to pay their last respects to Mrs. Welch, who was born and grew to young womanhood here. Prior to her marriage, she spent several years as a stenographer with a Calgary business firm. Wherever she went her jolly nature drew a host of friends around her. The numerous floral offerings were emblematic of the esteem that she bore in the wide circle of friends she had made in her short life. She was an earnest worker in all her undertakings, entering as she always did with the courage to do all things well. She leaves to mourn her loss a husband and infant son, father, mother

Lodge Directory

Blairmore Lodge No. 68,
K. O. F.
Meets every First and Third Tuesdays at 8 p.m., in the Oddfellows' Hall. Officers for the ensuing term: E. McEwen, N.G.; W. Oliver, V.G.; J. B. Harner, Secretary, Box 243.

Crowview Rebekah Lodge
No. 64, I. O. O. F.
Meets the first and third Thursdays of the month at 8 p.m. Officers for the ensuing term: N.G., S. H. McKay; V.G., S. H. Patterson; Rec. Sec., S. B. Howe.

Livingstone Lodge No. 22,
KNIGHTS OF PYTHIAS
Meets in the Castle Hall on the second and fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: C.C., T. J. Williams; K. of R. & S., B. Senior.

Blairmore Lodge No. 15
K. O. F.
Meets in the Elk Hall the 2nd and 4th Tuesdays of each month at 8 p.m. Visitors made welcome. R. W. H. Pinkney, Exalted Ruler; J. R. McLeod, Secretary, Box 2033, Blairmore.

ALBERTA AMATEUR
BASEBALL ASSOCIATION

The annual general meeting of the Alberta Amateur Baseball Association will be held at Calgary on Wednesday next. The meeting will convene at 3 p.m. in the Board of Trade rooms, Lougheed Building. As this is the most important meeting of the year, a good attendance is anticipated.

Any club is eligible to send a delegate, provided such delegate carries credentials signed by the executive officers of the club concerned and the affiliation fee for 1927. Fees are: Senior championship \$15.00, intermediate championship \$10.00, junior championship \$3.00. Juvenile and midget clubs are affiliated free of charge.

All fees must be paid before a delegate can vote for the club.

It has been mutually arranged by the executive officers of the Alberta Amateur Baseball Association and the Alberta Amateur Union, that the Alberta Baseball Association shall be acknowledged as the controlling body for baseball in Alberta, and will conduct championships for the intermediate, junior, juvenile and midget sections strictly upon amateur basis, as defined by the Amateur Union rules. The senior championship will be confined to Class "A" teams. Friendly games will be permitted between such Class "A" teams and other teams in the Association upon special application to the executive of the association, and players participating from other teams will not injure their standing with the Amateur Union.

Championship games in the various sections should be started early in the season, thus enabling all country teams to take part and the championships to be completed before harvest starts.

Charlie Cheesman, of Cardston, is president of the Alberta Amateur Baseball Association; E. D. Battrum, of Calgary, is honorary secretary.

Mr. Flood, of the Royal Bank staff, is enjoying a three weeks vacation.

and two younger sisters, Mrs. Duffield, of Pincher Creek, and Mrs. Scotter, of Lundbreck. The sympathy of the community is extended to the bereaved ones.

Celebrating Canada's Jubilee

The celebration of the sixtieth anniversary of Confederation should be well and fittingly observed by all citizens throughout the length and breadth of the Dominion, and not community however small should fail to take advantage of this historic date to review the progress of the country and to strengthen in the minds of all, especially the young, a determination to render worthwhile service to Canada and make it a still better land in which to live and a real power for good among the nations of the world.

A strong national committee has been created by Parliament to give direction to this celebration in its large national aspects, and Provincial committees are in process of formation in each of the nine provinces. The chief national ceremonies will, of course, be held at Ottawa, the Federal capital, and it is proposed that in each of the provinces striking ceremonies should be held at the provincial capital cities. But every city, town, village and hamlet should likewise organize to commemorate the event.

While in the observance of this diamond jubilee, sports, contests, fireworks, and other forms of recreation and pleasure will and should find a place, it is to be hoped that something of a more lasting character will be done or inaugurated that will materially assist in the continued and greater development of Canada and advancing it along the path to true national greatness and strength.

The Dominion-wide oratory contest now in progress in the schools of the Dominion under the auspices of leading daily newspapers is a concrete example of what we have in mind. It is educational, inspirational, and cannot fail to induce a true pride in Canada and its achievements, and to promote a true and helpful national spirit. The study which participation in this contest imposes on thousands of students will leave a lasting impression, while the training in public speaking that results will prove a real asset to the Dominion.

A suggestion has also been advanced that the national committee should create a national prize in literature to be awarded each year to the best Canadian literary production of the year. Such award might fittingly be announced on each succeeding Dominion Day. A really worthwhile prize would undoubtedly have the effect of encouraging a higher standard in Canadian literature.

Cannot the idea which prompted this suggestion be extended to include each community throughout the Dominion? Most of our cities, towns and villages experience a lack of something of a public nature which could easily be provided at comparatively small expense if the residents would unite their efforts in making provision for it. Some lack a community centre; in others the absence of a public library is a real loss to the people; some places have as yet failed to make adequate provision, possibly no provision at all, in the shape of parks or playgrounds; many have neglected to plant trees or create beauty spots to improve the appearance of the community in which they pass their lives.

What could be better prove a more fitting observance of Canada's jubilee than the creation of a Confederation Park, a Jubilee Library, a Canada Community Hall, or a Confederation Avenue of trees, or something of beauty or of public service along somewhat similar lines?

The above suggestions are merely intended to direct attention to the idea and to provoke consideration of it. Each community will be aware of its most pressing need, and of its ability to supply that need. Each community, no matter how small in numbers, can do something. All that is necessary is that some thought and consideration be given to the matter, and one or two "live" leaders can quickly secure the co-operation of all, with the result that something really valuable and of lasting benefit will result in commemoration of the Diamond Jubilee of Confederation.

Gorgeous Car For Nigerian Chief

British Factory Turns Out Dazzling Vehicle for Emir of Kano

Rich native potentate who has travelled in all the most luxurious of automobiles, has been given a new car, a car that has just been completed for the Emir of Kano, one of the most powerful of the Nigerian chiefs, but, according to instructions to look like a bird of paradise, when travelling under the blue African sky. The use of black on any part of the car was forbidden on religious grounds. All difficulties were, however, overcome, and rarely has anything more gorgeous left a British factory than this dazzling vehicle. The chassis is a 6-cylinder with all parts brightly finished. The dashboard is of polished aluminum. The steering wheel and the door handles are blue. The springs are painted red and the fuses carrier on the dashboard is of ivory. The body is striped with red and gold lines. The hood is more like a sunshade and is a vivid green in color, and the interior is upholstered in blue leather. Even the engine, normally black, has been painted a "silver paint." In the dazzling sunshade of Africa the car travelling at high speed—and it is understood the Emir of Kano delights in speed—will certainly give some impression of a gay bird of many hues.

Switzerland Has Access to Sea

And Joke About Swiss Navy Is Losing Its Point

The world is in danger of losing its joke about the Swiss navy. Ships sail from Switzerland to the sea, and the Rhine has been opened for navigation as far as Basle, and the Swiss mercantile marine is a prominent feature of the Swiss trade. Many shipping firms, which send merchandise by European canal, river and ocean clear to the United States have opened offices at Basle.

A Real Cinderella

The story of Cinderella has been traced by an historian to the account of a young lady named Rhodope who was carried by the wind, while she was bathing in the Nile, to the feet of the Egyptian king who offered a reward for the owner. When Rhodope claimed her sandals the king married her.

Proposed New Paper Mill

New York, Montreal and Chicago financial men are reported to be combined in the plan to construct a 600-ton paper mill at Wychemont Falls, Manitoba, for which application has been made to the Federal Government. Timber limits involving 15,000 cords of pulpwood are being sought.

Workers in Brazil are compelled by law to take an annual vacation of fifteen days.

For distemper—Minard's Liniment.

Chinese Women Progressive

Are Becoming a Factor in Rejuvenation of Their Country

The women of China will be a factor in the rejuvenation of that country, according to Mrs. Grace Thompson, who spoke before the Women's Press Club in New York. Describing the achievements of modern Chinese women, Mrs. Thompson said she knew a number of Chinese women who had published 30 books. Another who conducted a school, she said, had adopted 100 children and was educating them. From a state of complete subjugation, the women are fast emerging, she said, and banks for women are being established.

Pains in Back Subdued Sore Chest Relieved

A Nova Scotian Tells How She Overcame Her Troubles With NERVILINE

"I consider NERVILINE the best remedy for a cold, sore throat or tightness across the chest," writes Miss Josephine Ross, of Windsor, N.S. "For many years my home has never been without NERVILINE. I had a cold on my chest that for four long days couldn't break up. I rubbed on NERVILINE three times a day, used NERVILINE as a gargle and was completely restored." It's because NERVILINE is so powerful, so penetrating, so sure to relieve congestion, that it is used in most homes, for the prevention and relief of a hundred minor ills. Get a 35c. bottle today.

Telephone System Pays

Alberta Government Phone System Shows Operating Profit

The Alberta Government telephone system showed a profit of \$270,000 in operation in the year 1925, according to the annual report of the Department. There was an increase of revenue over 1924 of more than \$450,000. There are now 20,413 rural subscribers and 36,517 subscribers on the urban system, making a total of 56,930 subscribers for the entire system, an increase of about 500 over the previous year.

SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and the system. But they are especially valuable in the spring when the system is loaded with impurities as a result of the winter life. The doctor says: "There is no other season when the blood is so much in need of purifying and enriching and even the liver pills help to enrich the blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring appetite is often poor—Dr. Williams' Pink Pills develop the appetite. In the spring the stomach weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring, anaemia, rheumatism, indigestion, neuritis and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood must seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not purify the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body, bringing new strength and vigor to the weak, easily tired men, women and children. Dr. Williams' Pink Pills this spring—they will not disappoint you. You can get these pills through any medicine dealer or by mail at 50 cents a box from 'The Dr. Williams' Medicine Co., Brockville, Ont."

A weighing machine designed for use in shops is so finely constructed that it will weigh anything from a human hair to a number of 40 pounds.

**SO SHORT OF BREATH
SHE COULD HARDLY
DO HER HOUSEWORK**

Mrs. Nelson Moore, Milford, Ont., writes: "I had heart and nerve trouble and was so short of breath I could hardly do my housework, and was so nervous every little sound I heard made me start like a cat. A friend of mine recommended

so highly I got a box of them and they did me so much good I got the second box, and now I am feeling like a different woman."

Heart and Nerve Pills are 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. M. L. Co., Limited, Toronto, Ont.

Invention Worth Million

Sum Paid to Young Russian for Photo Machine

A young Russian photographer of scientific talents came to New York three years ago with pockets empty of money, but with a mind amply with an inventive idea.

Today this Russian idealist, Anatol Joseph of New York, has \$1,000,000 in cash because his idea has been transformed into a form of money.

In payment for the invention, which resulted from the idea, Henry Morgenthau, former United States Ambassador to Turkey, acting as the head of a syndicate of about a dozen New York business men, handed Joseph a check for \$1,000,000 in the Sulgrave Hotel, Park Avenue and 67th Street.

The stroke of the pen that transformed Joseph within a few seconds from a struggling photographer to millionaire did not, however, change his socialist conviction. He plans to use half of the million for charity and part of the other half to assist himself.

The device that brought Joseph the million is the little automatic machine that takes a strip of photographs for 25 cents.

Joseph conceived the idea of maintaining one Royal train for common use on any of the four lines on which members of the royal family may be travelling in state, instead of one special train being held in readiness by each individual company.

A railway official referring to this said: "No decision has yet been reached, but the subject is under consideration, in view of the frequent use being made of the royal trains, due to a change in the habit of royalty. Although members of the royal family now travel more than they used to, they do so in a more free and easy manner."

Royal Trains Seldom Used

King and Queen Travel With Less Ceremony Than Formerly

The railway companies, it is stated, are considering the desirability of maintaining one Royal train for common use on any of the four lines on which members of the royal family may be travelling in state, instead of one special train being held in readiness by each individual company.

A railway official referring to this said: "No decision has yet been reached, but the subject is under consideration, in view of the frequent use being made of the royal trains, due to a change in the habit of royalty. Although members of the royal family now travel more than they used to, they do so in a more free and easy manner."

"Instead of ordering a royal train, the King and Queen, unless it be a ceremonial occasion, more often than not have a special coach on an ordinary train. The Prince of Wales in particular, very rarely uses a royal train."

A foe to asthma. Give Asthma half a chance and it gains ground rapidly. But a half a chance is the remedy of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the most breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

T.B. Taking Heavy Toll

Deaths Among Greenland Eskimos Due to Unsanitary Conditions

The devastating influence of tuberculosis is taking a very heavy toll of Greenland Eskimos. H. C. Raven of the department of comparative anatomy of the American Museum of Natural History, told the Royal Canadian Institute in Toronto.

The prevalence of tuberculosis in Greenland, where Mr. Raven spent the summer of 1925, was attributed by him to the fact that the Eskimo lived in very unsanitary surroundings, as many as 12 people being crowded into one little igloo four feet wide by ten or twelve feet high.

Manufacturing industrial development is in its infancy in Bolivia, and it is already being a producer of minerals. A disadvantage is the almost complete absence of fuel in the country.

Vitaglass is Newest Idea

Does Not Exclude Ultra-Violet Rays Like Window Glass

Scientists have discovered at a date it somewhat belated, that glass which has been the standard material for windows, is one of the greatest evils from which humanity suffers. They do act as a preventive to cold winds, draughts and damp, but they only give the illusion of light and warmth. The Medical Research Council corroborates the fact that when light passes through a window of ordinary glass it is entirely robbed of the beneficial ultra-violet rays. It gives a sensation of warmth, but, apart from this, it can have no effect on bodily efficiency and well-being.

The remedy exists, however, for both light and the ultra-violet rays are provided by vitaglass, the invention of a Birmingham scientist, Mr. E. E. Lamplough. It has been installed in several hospitals in Great Britain and in the Smithwick Borough Council Schools. The installation, it is claimed, has had remarkable results on the health of the pupils.

The Morning Post says that vitaglass possesses the property of transparency to the curative ultra-violet rays of natural light. We quote: "Up till quite recently it had been found that quartz or fused silica were the only known substances that possessed this property of transparency, and their high cost had rendered the possibility of their application to windows quite prohibitive. The cost of vitaglass is, however, very little more than ordinary window glass, and so the question of its installation in factories and industrial centres becomes of considerable interest."

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwelcome and careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a meretricious act to rid it of these destructive parasites, especially when it can be done without difficulty.

U.S. Will Have Big Exhibit

Hon. Harry Lewis, U.S. Commissioner in charge of commercial exhibit at the Dominion Day Exhibition, has written asking that an extension of time be granted in connection with the closing of contracts for space. Already the United States exhibits have filled the original space allotted them, and addition will be housed in the Coliseum at Lansdowne Park.

A Model of Cleanliness

If the housewife could visit a modern milk condenser, where pure country milk is put in for her convenience, she would be as delighted with its cleanliness as she would be amazed at the luxury of the process. In Dorset, condensed milk where Eagle Brand or St. Charles Milk is packed, the entire plant is subjected to a right-cleaning every day. Every container and every piece of piping through which the milk passes is sealed with live steam. St. Charles Milk, which is evaporated, has nothing added to it, and nothing taken away, except a portion of the natural moisture of the country milk. After being treated in this manner, it is kept perfectly in the unopened tin, Eagle Brand, which is condensed milk, is preserved by the addition of pure cane sugar, but nothing else is added to the fresh country milk. The condensed milk is called "sweetened" and the evaporated "unsweetened" milk.

Heroin? Oh, George, can't you wait just a week for my decision? Voice from the Gods: Don't you do it, George. The play won't run that long—Galexy.

Canadians Heavy Tea Drinkers

Dominion Stands Fourth Among Nations of World in That Respect

Each Canadian drinks seven four pounds of tea per year, or practically five times as much as our American cousins to the south of us. Great Britain (including Northern Ireland) leads the world in point of consumption by using yearly over 100 million pounds of tea, or 27½ pounds per capita. Then comes the United States with 100 million, but only nine-tenths of a pound per capita. Next comes Australia with 40 million, and Canada with 35 million. No reliable statistics are available for China or Russia. Both these countries consume a large amount of tea, but the per capita is very small. A great deal of tea would be used on this continent if the public were educated to demand fresh tea. Old tea is flat and unpalatable. Tea is a very delicate vegetable growth, which deteriorates unless kept sealed. A bottle of expired tea soon loses its flavor if exposed to the air. This is exactly what occurs in the case of tea.

AMENDMENTS TO GRAIN ACT ARE TO BE EFFECTIVE

Ottawa.—Amendments to the Canadian Grain Act, which passed the House of Commons and gave the farmer the right to designate the terminal elevator to which his grain shall be shipped, were approved by the banking and commerce committee of the Senate after a debate which lasted all afternoon. An amendment to the bill which would have substituted a compromise plan, put forward by the board of grain commissioners, was defeated by 14 to 12. The compromise agreement would have given the farmer the right to designate the terminal elevator but would have relieved the country elevator from responsibility as to loss in weight when such elevator had been given by the shipper. Representatives of the grain pools of the prairie provinces opposed the suggested amendment.

Three distinct differences of opinion developed on the amendments. Senator Dandurand held that the farmer had lost some of his rights by the 1925 amendment to the Grain Act and that all that was being asked was the restoration of these rights. Commissioner Snow, of the board of grain commissioners, received support for his contention that the country elevator should not be held responsible for loss in weight if the farmer designated the particular terminal elevator to which the grain should be shipped.

Senator Calder said that the act of 1912 had never given the farmer the right to designate the particular elevator to which he wished his grain shipped.

The farmer, Senator Calder declared, should have the right to determine how his grain should be handled from beginning to end, to make as much profit as possible, but not at the expense of endangering millions of dollars of capital invested under a law which existed for a great number of years.

Sir George Foster said the board of grain commissioners had investigated a report. This body was disinterested and competent and its suggestions might be of value.

The recommendations of the board were read before the committee. Mr. Commissioner Snow explained the opinion of the board.

Stresses Will For Peace

Paramount Necessity to Prevent War.

Says French Foreign Minister. Paris.—More important than technical disarmament is the will for peace, declared M. Briand, foreign minister, in a message sent to the United States on the occasion of the tenth anniversary of the entry of the United States into the world war.

M. Briand's message, sent on the heels of France's refusal to participate in the three-power naval disarmament conference at Geneva, insisted that the paramount necessity in preventing war was the cultivation in the civilized world of a spirit of peace interwoven through a "policy of peace" on the part of all nations.

"If there were need of it between the two great democracies in order to give high tone to their desire for peace, and to furnish a solid example to other peoples France would be willing to enter into an agreement with America mutually outlawing war, to use your way of expressing it."

Present Claim to Government

Question of Land Title of B.C. Indians Before Committee.

Ottawa.—Council for the Allied Tribes of British Columbia continued presentation of the claims of the tribes to the aboriginal title to lands in British Columbia before the joint committee of the House of Commons and the Senate.

Quotations were presented from ancient treaties and more modern court judgments in support of the contention that the relation between Canadian government and the tribes was one of trusteeship as opposed to guardianship.

The world's greatest dealers in fire were: London, 1665; Moscow, 1812; Chicago and Paris, both, 1871; Boston, 1872; Baltimore, 1904; San Francisco, 1906; and Salomica, 1917.

Only one position is now being paid by the British Government. This is the annual sum of \$25,000 to the holder of the Nelson earldom.

There are 1439 women magistrates for England and 237 for Scotland.

W. N. U. 1676

Britain's Chinese Policy

Not Prepared to Be Hushed Out of China, Says Chamberlain. London.—Great Britain has no intention of being driven out of China, Sir Austen Chamberlain, foreign minister, made it clear during a debate in the House of Commons on the Chinese situation, in reiterating the Government's policy.

He declared that Great Britain would pursue a policy of conciliation and adjustment of its old position in China to meet the new aspirations of the Chinese people and the conditions of the country as events progressed. Then, after a pause, he said slowly and solemnly: "Great Britain is not prepared to be hushed out of China." His statement drew cheers from the Conservative benches, after which he continued: "We are prepared to withdraw our nationals from Shanghai and other up-country places or to be treated as though they had no right to that which is theirs by treaty and as though the lives of Britishers were of no account to the British Government."

British Emigration to Canada

Says Percentage Coming to Dominion Is Lamentably Small.

London.—"I frankly say that up to date we have been grievously disappointed with British emigration to Canada," declared Col. J. P. Dennis of Montreal, head of the department of the Canadian Pacific Railway, speaking at a luncheon here.

"There is a Dominion and provincial organization in Canada capable of handling 50,000,000, yet we have only 9,000,000. We have to look to Great Britain and Continental Europe for our increase yet the percentage we are obtaining from Britain is lamentably small."

Hon. Herbert Greenwood, former premier of Alberta, speaking at the same luncheon, declared that the interest taken by some of the most outstanding men in Great Britain in Canadian enterprises was remarkable. There was a great reservoir of population in Britain which would make admirable settlers in Canada.

Would Ask Help of Geneva

League Should Settle Difficulty in China Says Ramsay MacDonald.

London.—J. Ramsay MacDonald, former prime minister and leader of the Opposition, opened debate in the House of Commons on the Chinese question.

Mr. MacDonald advocated calling on the League of Nations to smooth out the difficulty in China. He declared that Chinese distrust Great Britain and the only way to remove their suspicions was to go straight ahead without recognition of the independence of China as a self-governing country.

Mr. MacDonald said not only China, but the whole of the East was awakening and it would be necessary for the West to adapt itself to the changed conditions.

"It is a problem of political adjustment. The less we have to do with soldiers the better for us."

Imports Apples From U.S.

Canada Is Second Best Customer In This Respect.

Washington.—In addition to being the country's best customer for oranges, lemons, peaches, grapes and berries, Canada is second only to the United Kingdom in the list of importers of United States apples. An official publication here says that more than \$30,000,000 worth of fruit were exported from the United States in 1926, an increase of \$11,000,000 over 1925. The total exports of fresh fruits in that year were \$53,000,000, and Canada was the principal customer.

South African Field Yields Large Diamond

Weights 81 Carats and Valued at \$35,000 Is Report.

London.—An exceedingly rich diamond field has been discovered at Alexander Bay, south of the mouth of the Orange River, says a Cape Town despatch to The Daily Mail. The despatch says that powerful financial interests have acquired control of the diggings which accordingly will not be proclaimed public. The largest stone thus far reported on the new diggings was valued at 47,000 weighing 81 carats.

Loan For B.C. Harbor.

Ottawa.—Third reading was given in the House of Commons to a bill respecting a loan of \$500,000 to the harbor commissioners of Vancouver on the same terms under which loans had been made by the Government to the harbor commissioners of Montreal and Vancouver.

New Plane For De Pinedo

Italian Aviator Will Resume Flight in Sister Ship From Italy.

Aspen, Colo., December 28.—Dum, Ariz.—Commander Francesco de Pinedo intends to resume his intercontinental flight just as quickly as he can arrange for a sister ship to be sent to the United States from his native Italy.

A thoughtless blow, and a match caused the destruction of the big sea plane after the aviator had flown it across the Atlantic Ocean, risked his life soaring over the wilds of South America and brought it here against great odds in making good by inland waters en route to the Pacific Coast.

The match was tossed on the oil-coated surface of the lake about the plane after the youth lighted a cigarette, and within a few minutes the ship, on which De Pinedo had lavished such care, was a mass of flames. Everything was in readiness for the departure of the Commander on the Apache Lodge-San Diego leg of his journey when the Santa Maria burst into flames. The aviator's bidding goodbye to friends on the shore as the match struck the oil-coated water, a flash and it had communicated the flames to the plane. As the ship burst into flames from stern to stern, Captain del Pinedo and ship's mechanic, M. Paschetti, jumped overboard.

The oil had been spilled on the water in refueling the ship and the fire became so intense there was no opportunity to reach the Santa Maria's cabin to get fire extinguishers.

WOULD DEVELOP WIDER MARKETS FOR PRODUCTS

Winnipeg.—Re-organization of the board of railway commissioners, to provide for seven members, three of whom would be from Western Canada, appointment of a trade commissioner to the United States to develop markets for Canadian products, and that taxation reductions and removal of protective duties on imports, with the income tax maintained, were among the subjects urged upon the federal government in resolutions adopted at the annual meeting of the Canadian Council of Agriculture here.

Other resolutions adopted protested against any duty being placed on timber twine coming into Canada, and urged that the council co-operate with the land settlement board and the Canadian Red Cross in securing the continuance of the British grant for medical attention to immigrants coming to Canada under the assisted passage scheme.

The decision of the Saskatchewan section of the United Farmers of Canada not to affiliate with the council was discussed. The Saskatchewan organization, at a recent convention in Moose Jaw, decided that it "would join the council only after it is fundamentally reorganized."

It was decided that the reorganization demanded of the Canadian Council of Agriculture would not be practicable nor in the best interests of the farmers of Canada generally. The council will continue to carry on its work even though the Saskatchewan seats at the council table are vacant.

A. J. M. Poole, of Kelowna, Man., was elected president of the council, and all other officers were unanimously elected with H. G. H. Schofield, vice-president of the United Farmers of Alberta, as vice-president. Mrs. S. E. Gee was elected president of the women's section, with Mrs. Miles Opre, president of the United Farm Women of Ontario, as vice-president.

The less we have to do with soldiers the better for us."

Weights 81 Carats and Valued at \$35,000 Is Report.

London.—An exceedingly rich diamond field has been discovered at Alexander Bay, south of the mouth of the Orange River, says a Cape Town despatch to The Daily Mail. The despatch says that powerful financial interests have acquired control of the diggings which accordingly will not be proclaimed public. The largest stone thus far reported on the new diggings was valued at 47,000 weighing 81 carats.

Loan For B.C. Harbor.

Ottawa.—Third reading was given in the House of Commons to a bill respecting a loan of \$500,000 to the harbor commissioners of Vancouver on the same terms under which loans had been made by the Government to the harbor commissioners of Montreal and Vancouver.

CHINESE TROOPS AT PEKING STAGE RAID ON SOVIETS

Peking.—A raid by Northern soldiers and Chinese police on buildings attached to the Soviet embassy here and the detention at a hotel of two United States journalists, one a woman, who are known to have incurred the displeasure of the Northern command by contributing to hostile publications, today introduced new international aspects to the Chinese civil war imbroglio.

Both the raid, which resulted in the removal of 22 Russians and about 50 Chinese, described as agitators, from the embassy compound, and the detention of the Americans, were conducted by representatives of Marshal Chang Tso-lin, the Manchurian warlord, who is commander of the Northern forces defending Peking.

While the raid was in progress fire broke out in the building formerly occupied by the Russian legation guard. A report was circulated, although its truth could not be confirmed, that the fire was started for the purpose of preventing records from falling into the hands of the Northerners. Two fire brigades rushed to the building and extinguished the flames in a short time, although not before some ammunition in the structure exploded, wounding one Russian dangerously.

Numerous bundles of red flags, seven carloads of propaganda leaflets, a machine gun, a trench mortar, bombs, about a score of rifles, thousands of Kuomintang (the Chinese political party) flags and a quantity of ammunition were stated to have been taken from the raided building.

Marshal Chang Tso-lin notified Northern commanders of the raid.

"The main danger to the preservation of peace in Peking is now removed," the marshal's message was said to be saying. "The arrested will be tried and dealt with according to their deserts. It must be pointed out that those rebellious mischief makers who are responsible for the dissemination of Bolshevism and the havoc wrought upon the people and the nations are unpardonable."

Asks Assistance For Imperial Service Men

B. C. Legion Branch Seeks Recognition to Federal Government.

Victoria.—The Cowichan branch of the Canadian Legion at a meeting of Duncan, passed a resolution "that the Canadian Government be requested to defray the entire cost of transporting, maintenance and treatment of all Imperial service men invalided to Canada due to service in China." The resolution referred to Canada's large trade interests in China and to the fact that many Canadian in China are being protected by Imperial troops. A copy of the resolution will be sent to Premier Mackenzie King.

Ontario Speed Limit

Toronto.—When royal assent was given to bills affecting the Highway Traffic Act and the Public Vehicles Act in the Ontario legislature the speed limit of 35 miles an hour on highways outside of cities, towns and villages in the province became operative.

Polish Officers Executed

Warsaw.—Two Polish army officers, named Piatek and Urbanski, were arrested in Thorn, charged with delivering plans for the defence of Pommern province to German agents. They were court-martialed, convicted and executed.

Fine British Types for Canada

Happy group of sturdy British settlers on route to British Columbia points over the lines of the Canadian Pacific Railway. From left to right: Mr. and Mrs. William T. Cottingham and five children from Wales, and found for Courtney, Vancouver Island; Mr. and Mrs. David Jones and six children, of Wales, on their way to Teluk; Mr. and Mrs. W. H. Smith and three children, who will establish their home at Mission; Mr. and Mrs. Harry Trellat, and their children for Agassiz; and Mr. and Mrs. William Murdoch, and five children, for Malakwa.

Protest Salary Revision

Civil Service Organization Consider Recent Adjustment Inadequate.

Vancouver.—A protest against civil service salary revision, as announced in Ottawa recently, was addressed to the Federal authorities by Fred Knowles of Vancouver, and C. Gardner, of Regina, president and secretary, respectively, of the Amalgamated Civil Servants of Canada, they state they find that what is "at best an equalization of pay is called a 150 increase for the purpose of depriving civil servants affected of the full benefit of the new increase."

Complaint is also made that the salary readjustment has been made only after three years' delay and that revision dates only from April 1, 1927. "We consider that, after four years' agitation on the salary question, to be offered in most cases from \$42 to \$60 is a direct insult to the patient and long-suffering service," the protest concludes.

Opposed To Serum For Cancer Treatment

Only Reliable Cure Is Surgery Says New York Doctor.

Toronto.—The weight of medical opinion is against the use of serum in the treatment of cancer, Dr. William S. Bainbridge, of New York, told the Toronto Academy of Medicine. He said that those who had deeply studied the subject were still open to conviction on the use of serum and claimed that with the rather inadequate knowledge of cancer possessed by the medical profession at the present time, the only reliable treatment lay in surgery.

Cancer was a local disease in the beginning and if removed in its incipient stages by the surgeon's knife there was every hope that it would not recur.

He did not believe that the rate of increase in the disease was as rapid or alarming as has been made out.

Amity Agreement Signed

Italy and Hungary Pledge Eternal Friendships and Aid.

Rome.—Italy and Hungary, through their prime ministers, drank toasts, pledging eternal friendship and aid. Both Premier Mussolini and Count Bethlen, the Hungarian premier, were vouching in their praise of each other, and expressed good wishes for the welfare of their countries and then covering. The occasion was a dinner which Mussolini tendered at the capitol in honor of the visiting Hungarian statesman, and followed the signing yesterday of a treaty of friendship, consultation and arbitration between Italy and Hungary.

COMMONS VOTES SUBSTANTIAL SUM FOR IMMIGRATION

Ottawa.—The immigration problems of the Dominion occupied the attention of the House of Commons. A vote of \$265,000 for the department of immigration and colonization was before the House in committee of supply and the discussion, which lasted several hours before the vote was finally passed, dealt in practically all phases of the department's activities. Its recent disagreement with the Salvation Army came in for debate with some of the members, particularly from the west, supporting the department's position on the ground that since it was in the immigration business it should not hand over its work to outside organizations. Others expressed regret that the Government had decided to stop its grants to the Salvation Army emphasizing that it has been an important factor in the colonization of the past.

Hon. Robert Forke, Minister of Immigration, was optimistic of the outlook for the coming summer and the years immediately to follow. Confident in the future of Canada, the minister did not fear bringing out large numbers from the Old Country would increase unemployment. He promised to give consideration to bringing immediately to the Maritimes as well as the West and urged operation of all parts of Canada to the work of leading a hand to the immigrants and otherwise assisting the department in this important work.

Considerable criticism developed regarding the various regulations respecting immigration, several members taking the view that they were too severe in many cases.

Following the passing of the item of \$265,000 for civil administration other appropriations, totalling \$2,580,000, were quickly approved. This total included a sum of \$750,000 towards the empire settlement scheme.

FOR PROTECTION AGAINST INFLUX OF U. S. PAPERS

Ottawa.—The bill which reduces the postage on newspapers from 15 cents a pound to 1 cent was given third reading in the House of Commons, following a lengthy discussion in committee.

The post office department during the recent years has carefully into the question of giving Canadian magazines and periodicals some protection against the influx of United States publications. Hon. P. J. Veniot, postmaster general, announced in the House of Commons.

The statement came during the discussion of the bill to reduce the rate of postage on Canadian newspapers from 1 1/2 to 1 cent a pound. The officers of his department, he said, would try to facilitate some plan to submit to the next session to meet the demands of Canadian publishers.

With respect to the bill now before the House, the postmaster said a number of smaller papers had sent telegrams to him urging that this bill be delayed until they had time to submit their views. They want a zoning system whereby publications carried long distances would pay more than those within a dream-sphere area. This same claim had been fully considered in 1920 when it was found impracticable to divide the country up into such zones were recommended. These publishers were holding a meeting on May 4 and 5 and if they had any further reasons to submit in support of their contention, his department would be glad to consider them. However, at the present time, the post office officials felt that such zoning was not feasible in Canada.

Mr. Veniot declared that his action in proposing the reduction of postal rates on Canadian newspapers was not due to the influence of any big dailies. "I have done it on my own initiative," he said, "because I think from an experience of some 25 years in the newspaper business it is due to the newspapers at the present time."

Boycott Of U.S. Goods

Agitation Starts in Capital of Southern Chinese Province.

Shanghai, Anti-American agitation, taking the form of a strike and a boycott of United States goods, has broken out at Changsha, capital of the province of Hunan, in southern China. A wireless despatch from that place said the strike and boycott had gone into effect and reported that the United States consular had gone aboard the United States "ambassador" Pales on the Slang river, preparatory to leaving Changsha.

The Chinese province of Hunan will be evacuated by foreigners shortly because of labor anti-foreign manifestations.

Rush Work On Bay Road

Twelve Hundred Men to Be Engaged On Work by May 1st.

Winnipeg.—Employment for 1,200 men will be provided on the work on the Hudson's Bay Railway, starting again on May 1. Three steam shovels alone will give work to 600 men. Eighteen government engineers passed through here recently en route to the Pas to commence work on the road. Two boats at Port Nelson are being put into condition to allow F. Palmer, British port engineer, to carry on his investigation. Aeroplanes are making regular trips to Port Churchill and Chabo Lake carrying supplies for Mr. Palmer's work at the port.

Asks Statement Of Expenditure

New Clause In Draft Treaty.

Geneva.—The preliminary consultation for a disarmament conference agreed to put a clause in the draft treaty obligating the powers to communicate to the League of Nations a more formal statement of their military, naval and air armaments as to the amount they propose to expend on land, naval and aerial armaments for each current financial year so that public opinion may be fully informed.

Disarmament Commission Inserts

New Clause In Draft Treaty.

Geneva.—The preliminary consultation for a disarmament conference agreed to put a clause in the draft treaty obligating the powers to communicate to the League of Nations a more formal statement of their military, naval and air armaments as to the amount they propose to expend on land, naval and aerial armaments for each current financial year so that public opinion may be fully informed.

Want Canadian Coal Used

Ottawa.—"The Government is bending every effort to supplement American anthracite in the markets of Central Canada," said Charles Stewart, Minister of Mines, in the House of Commons in supporting the second reading of a bill to encourage the production of domestic fuel and coal.

The following sign appeared over a local ice-cream counter a few days ago: "Take a brick home; it's fine when company comes."

Mrs. Stephenson has moved her millinery parlor to the Orpheum theatre building, where in conjunction Miss McEwen is operating her marcelling parlor.

Harry John Reid, aged 24, died in an Edmonton hospital on Friday from concussion of the brain following injuries received during a boxing contest at Sanguo on March 22nd.

When fire destroyed a school building at Pierre, South Dakota, one little fellow, with a grin, ducked under his teacher's arm, rushed to the steps of the building and threw his books inside.

The death occurred at Vancouver last week of Mrs. Annie Berry Machin, formerly Mrs. Jonas Jones, of Cowley. The remains were forwarded to Pincher Creek, where interment took place on Saturday.

The death occurred on Saturday, April 9th, of Margaret Douglas Welch, aged 23 years, beloved wife of E. A. Welch, of this city. The remains were forwarded on Monday to Cowley, where interment took place. Burial was made in the family plot. The news of the death of Mrs. Welch came as a great shock to many friends in the district. Funeral arrangements were conducted by Martin Bros.—Lethbridge Herald.

Rev. W. A. Lewis, former pastor of the Macleod United church, on Tuesday of this week had the honorary degree of Doctor of Divinity conferred upon him at the second annual convocation of the United Colleges, Winnipeg. Rev. Lewis was a member of the first class that graduated in theology from Wesley College. Dr. Lewis is pastor of Victoria United church, Calgary.

The late Sir Robert Bond, a former premier of Newfoundland, by his will, admitted for probate, bequeathed to the people of Newfoundland his estate, known as "The Grange," at Whitbourne, together with eight square miles of land, the whole to be used as a model farm. Sir Robert left to the museum at St. John's the caskets and plates presented to him during his public career by the cities of London, Manchester, Edinburgh and Bristol. The whole estate is valued at \$92,750.

Mr. and Mrs. E. W. Mercer have just received word of the death of Captain Abel Saunders, husband of their eldest daughter, at St. John's, Newfoundland. The deceased was a sea captain. He had taken cold when on a voyage to Portugal and was in hospital there a short time. On the return trip he developed pneumonia and after a lingering illness due to heart trouble, he passed away at his home, leaving his widow and four children. Sympathy is extended to Mr. and Mrs. Mercer and family, who came from Newfoundland about twenty years ago, to make their home in Alberta.—Pincher Creek Echo.

Local and General Items

Mr. E. D. Battrum is making the quarterly audit of the books of the town.

Clareholm Elks have decided to take over the baseball team in that town for the season.

Commissioner Bryan, of the A.P.P., was down from Edmonton on a visit to the local barracks on Tuesday.

FOR SALE—"Ye Olde Firme" Heintzman Piano. Almost new. Apply to Mrs. J. M. Carter, phone 84.

Miss Mary Sartoris arrived home from Calgary on Wednesday morning, to spend Easter with her parents.

Waterton Lakes Park is to have a fish hatchery, the announcement having been made at Ottawa a few days ago.

The Misses Olivier, who have been away to school, arrived home Wednesday morning for the Easter holidays.

Miss Mildred Passmore left last week end for Vancouver, where she will engage on the telegraphic staff of the C.P.R.

Five thousand immigrants were landed at Halifax from seven ships, and 2700 at St. John from three C.P.R. ships last week end.

We heard the other day of a Scotchman who declined to put a second one-cent stamp on a letter, fearing it might then be overweight.

"Crows' Nest Harry," otherwise H. Stanford Rowley, well known old-timer in the Kootenays, who claimed association with the late Wm. Fernie in his early discoveries in this district, was found dead in bed at a Nelson hotel, where he worked as porter. He was 70 years of age.

The storage premises of Plunkett & Savage here are being enlarged so as to permit of special rooms for the storage of bananas. The basement has been extended under the Colombo store to the corner of Ninth Avenue.

Amendments placed in the towns act by Fred White, Calgary labor leader, when qualifications of voters for mayor and councillors in towns was under consideration, were passed by the Alberta house, and now tenants, their wives and daughters, if over twenty-one years of age, are given the vote. The clauses of the present act, disqualifying candidates for office if there were liens, taxes, etc., on their property at the time of the election, were also struck out of the act and sixteen sections, mostly from the village act, were inserted in the towns act.

Jimmy Coutts vouchsafes for this one, on how they catch fish in the inland waters of British Columbia in the winter time: A fisherman arms himself with the necessary hooks, line and bait, and a pocket chisel, with which to cut holes through the lake ice. He carries a two-pound can of green peas and places the peas about one inch apart around the edge of a hole. When a fish comes up for a pea, the fisherman hits him over the head with the chisel and lands him. Just try it.

The club and headquarters of the Blairmore Branch of the Canadian Legion, B.E.S.L., are moving today into their attractive, cosy and commodious quarters in the Blairmore hotel block. The new quarters are very nicely and conveniently fitted and we understand will be run strictly along club lines. In addition to the beer room, there will be writing and reading rooms, all neatly furnished, bright and clean. At the rear is a large room, where general meetings of the club may be held. Andy Waugh will be in charge.

John Bare, senior, of the Porcupines, was a visitor to Blairmore on Monday.

Mr. R. L. Fowler, of R. L. Fowler & Co., Calgary, was in Blairmore last week end.

The births of thirty children in the Drumheller district for the month of March are recorded.

Miss Florentine Houbregs is home from Bellevue, where she had been undergoing medical treatment.

Our new story, "What We Know About Women," was a film feature at the Orpheum Theatre last week end.

SEE our Stores for Special Prices on all government inspected products.—P. BURNS & CO., Limited.

A Bellevue miner was yesterday bound over to keep the peace for twelve months for rough-handling a medico.

A party reached Truro, Nova Scotia in a Ford touring car last week from Florida—said to be the first harbinger of spring.

A new line of phone connection is being established between Havana, Cuba, and London, England, a distance of about 5000 miles.

Members of the Medicine Hat "Monarchs" were recently banqueted and presented with watches and club bags as a token of esteem and appreciation of their work during the 1926-27 season. George Bond, formerly of Blairmore, was one of the honored. Bond had also the honor of gaining most points in scoring for the league and received a special gift in recognition of same.

Rose Marie says: "Kisses shorten the natural span of life, according to a doctor somewhere or other. Claims that they affect the heart. Each kiss is supposed to make your life three seconds shorter, 450 kisses (family necks excluded I suppose), remove one whole day from the average span, according to the learned one. Ho hum! someone is always taking the joy out of life."

The lady candidate was making a house-to-house call with the object of trying to obtain votes.

"Good morning, Mrs. Jones," she said, sweetly, as the door of one house opened to her knock, "may I hope that your husband will support me?"

"Support you?" said Mrs. Jones with a sniff. "Not the least likely; why 'e ain't supported me for over a year and I'm 'is wife."

The second of the season's series of rummy drives, being staged by the Elks, took place following the regular meeting of the local lodge on Tuesday night, with about twenty-four hands at play. Prizes were won by E. Hink (a professional) and J. W. Gresham (an expert novice). Prizes on this occasion were donated by Past Exalted Ruler Robert Gray. Slap-jacks and coffee were served, following the drive, the cook-room being in charge of Chef Linville.
